

# Lockdown Procedure

On very rare occasions, it may be necessary to seal off the school so that it cannot be entered from the outside. This will ensure that pupils, staff and visitors are safe in situations where there is a hazard in the school grounds or outside in the near vicinity.

The lockdown procedure will be a sensible and proportionate response to any external or internal Incident, which has the potential to pose a threat to the safety of staff and pupils in the school. The procedure will minimise disruption to the learning environment whilst ensuring the safety of all pupils and staff.

**Lockdown procedures may be activated in response to any number of situations.** Some of the more typical might be:

- ◆ A reported incident/ civil disturbance in the local community
- ◆ An Intruder on the school site
- ◆ A warning being received regarding a risk locally (e.g. of air pollution – smoke plume, gas cloud, etc.)

Students and staff will be notified that lock down procedures are to take place immediately by:

- ◆ A distinctive bell which will clearly sound different to the changes of the lesson bell and the fire alarm

## Lockdown practice

1. If lockdown is initiated during lesson time, the students remain in the room they are in, the staff will ensure the windows, and doors are closed/locked and screened where possible. Students should sit on the floor away from possible sightlines including external windows/doors.
2. If lockdown is initiated at a time when students are out of class, there will begin a process of students being quickly and calmly ushered into the school building. They will be directed to the class of their next lesson and when they arrive their teacher will move to the actions described in the point above.

## Fire and lock down drills

Fire and lock down practices will take place at least once a year to ensure everyone knows exactly what to do in such a situation. Monitoring of practices will take place and staff debriefed for positive reinforcement or to identify required improvements.
