Sorry said the florist no flowers left today.

You can use bottle tops, coins or buttons etc for the money exchange when buying a flower.

One coin = one flower.

You could have a game of buying flowers. How many coins for 3 flowers?

1 2 3 4 5

You might like to cut out the flowers and stick them to a lolly stick or spoon so they have a stem. Or you can use them as they are.

After singing the song can you match a flower to each number?

If you take two away how many left?

If you put one back, how many now?
