Mr Osborne's News

It has been a real "keeping safe" sort of week at Revoe, with children taking part in a wide range of activities designed to help them stay safe, make positive choices and look after themselves and others.

For Anti-Bullying Week and Odd Socks Day, children across school have been exploring the importance of kindness, speaking up when they are worried and supporting others. From creating friendship displays and discussing trusted adults to making pledges about being positive role models, the children have shown kindness and understanding.

We have also marked Road Safety Week, with daily sessions helping children learn how to stay safe near roads and traffic. Children have discussed safe crossing points, recognising hazards and making sensible choices when travelling. They have also created road safety posters, with winners from each class helping to create a whole-school display. The roads around school can be very busy and dangerous so please ask your child what they have learned and encourage them to put these important safety skills into practice whenever you are out together.

This week, we welcomed Bonanza Creative into school to deliver a whole-school assembly and workshops for Years 2 and 3 about the dangers of carbon monoxide. Children learned how to recognise the warning signs and symptoms of carbon monoxide poisoning and how to keep themselves and their families safe. More workshops are taking place next week, so be sure to talk to your child about them - they may well be able to teach you a thing or two!

Year 5 took part in an Awaken workshop focusing on community safety, anti-social behaviour and online safety, while Year 6 enjoyed a Switched On workshop from Electricity North West, learning about electrical safety and the wide range of careers available in the energy industry. It is important to us that children understand the many opportunities that exist and know that they can aspire to be anything they want to be.

Year 6 also took part in a knife crime awareness workshop, which explored facts and myths, personal safety, making positive choices and using their voices to create change. The session encouraged thoughtful discussion and helped pupils understand how good decisions can keep themselves and others safe.

We also completed one of our regular lockdown drills this week. Just like our fire drills, these are carried out to make sure that staff and children know what to do in the unlikely event of an emergency and to ensure our procedures are working effectively. The children were absolutely fantastic, listening carefully to instructions, remaining calm throughout. We were incredibly proud of the sensible way they approached the drill.

Finally, a gentle reminder that attendance has dipped a little this week. Every day in school matters and arriving on time helps children get the very best start to their day. Please remember that once children are here, we will always look after them and contact you if they become genuinely unwell. Thank you for your continued support in making attendance a priority.

We hope you all have a lovely, restful weekend. Stay safe, look after one another and enjoy some well-earned family time.

Dates for the Diary 2026

Tuesday 24th and Wednesday 25th November - CO Safety Workshops- Years 5 and 6
Tuesday 1st December- Snow White Panto in school
Friday 4th December- Non- Uniform Day- Chocolate
Wednesday 9th December- Christmas Dinner Day
Thursday 10th December- Christmas Jumper Day

HEAD LICE CHECK

Learning at RLA!

Reception

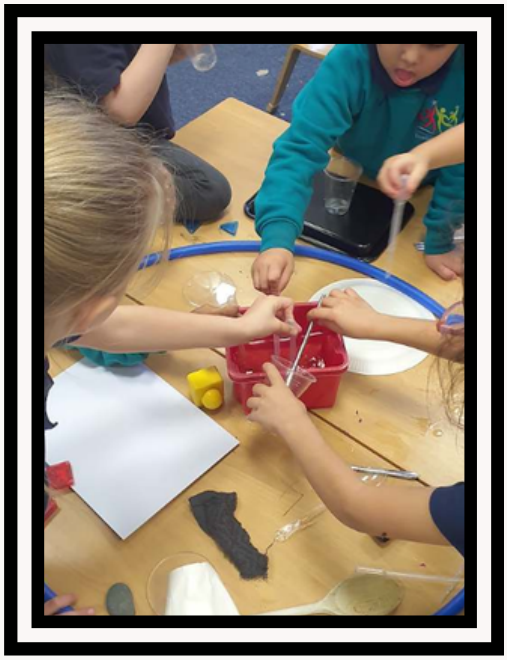
This week, Reception have started rehearsing their songs for the Nativity and are already working hard to learn the words and actions. In Maths, the children have been exploring part-whole models and developing their understanding of how numbers can be split into different parts.

We also enjoyed reading The Colour Monster and spent time discussing the different emotions the character experienced throughout the story, helping the children to recognise and talk about their own feelings.

In Topic, we explored some of Blackpool's famous landmarks. The children took part in a virtual adventure, visiting the circus, admiring the Illuminations and even riding The Big One, all from the comfort of their classroom!

Year 1

This week in Year 1 Science, the children have been learning all about materials. We began by exploring what materials are, learning that materials are what objects are made out of. The children investigated a variety of materials, including paper, metal, glass, wood, rock and plastic. They used their fantastic observing skills to identify different objects and sort them into groups based on the materials they were made from. We then received a very special letter from Baby Bear, who needed our help choosing a new material for his chair! Baby Bear challenged us; he didn't just want a chair that was strong, but one that would also be suitable for staying outside in the rain. The children put on their thinking caps and began exploring which materials would be best for the job. What clever scientists!



Year 2

What a busy week of learning in Year 2!

🗺️ Our geographers enjoyed a walk to Revoe Park, where they explored and mapped the area ready to create their own aerial view maps back in class.

🚦 We also took part in a Road Safety lesson, learning how to stay safe when walking near roads and around our local community.

🤝 During our Anti-Bullying lessons, we talked about what bullying is, how it can make people feel, and what we can do to help others and keep our school a kind and welcoming place.

⚠️ We finished the week with a Carbon Monoxide Safety lesson, learning why carbon monoxide can be dangerous and how alarms help keep us safe. Ask your child what they can remember from our safety poster!

⭐ Another fantastic week of learning, teamwork and curiosity from Year 2. Well done, everyone! ⭐💛

Let's see what our children have been getting up to...

Year 3

What a fantastic and busy fortnight it has been in Year 3! We were incredibly excited to head out on our first school trip of the year to Blackpool Pleasure Beach. Taking on the role of engineers, the children learned all about rollercoasters, enjoyed a tour of the park and then worked brilliantly in teams to build their very own rides. All classes behaved impeccably throughout the day and we are incredibly proud of how they represented our school. Well done, Year 3!
History also took centre stage last week as we delved deeper into our learning about Remembrance Day. This learning culminated in Year 3 having the honour of hosting the whole-school Remembrance Assembly. Every child did an amazing job sharing their learning and helping us remember the importance of the day. We couldn't be prouder!
Finally, it's been just as busy inside the classroom as we have begun exploring non-chronological reports in English. The children are learning how to organise information, use technical vocabulary and write informative pieces. This will all come together in an independent report about mammoths, linking brilliantly with our Stone Age learning in History. We can't wait to see what they produce!

Year 4

Last week, Year 4 enjoyed a fantastic day at Stanley Park, where they put their geography skills to the test with some orienteering.
The children used latitude, longitude and a compass to find their way around the park. As they located different places, they marked them on their maps using symbols from a map key.
It was a lovely way to bring their classroom learning to life!

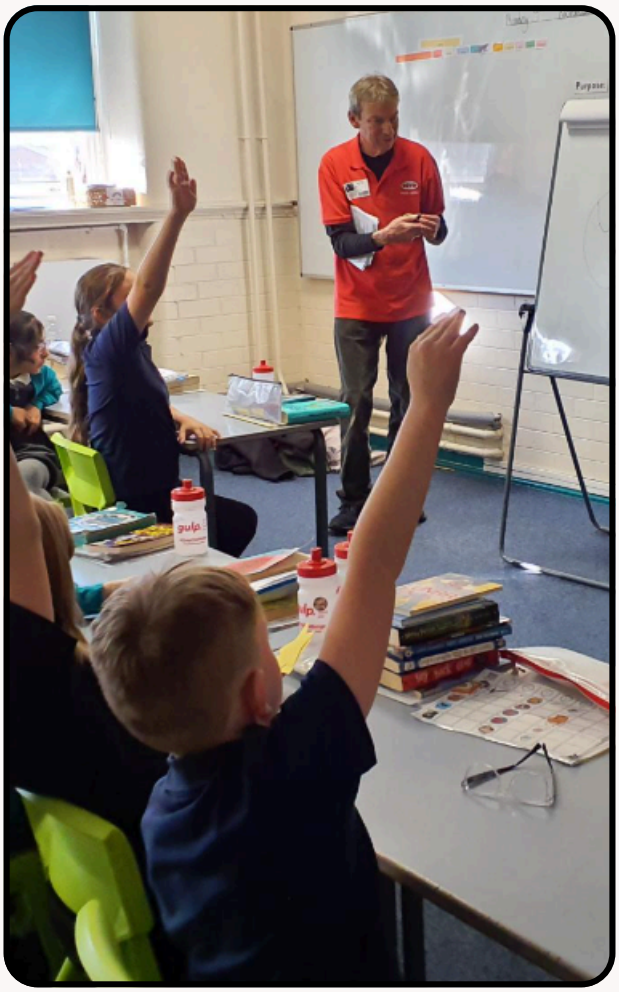
Let's see what our children have been getting up to...

Year 5

Over the last couple of weeks, Year 5 have taken part in two Blackpool Schools Youth Work (BSYW) workshops. During these sessions, they explored the theme of Jesus as the Light of the World. The children learned about the miracles Jesus performed, the ways Christians celebrate His work, and how people share His message with others.

Throughout the workshops, the children completed a range of Gold Star challenges and were absolutely fantastic. Linda from BSYW commented that our Year 5 children had earned more stars than any other group she has worked with. The children demonstrated excellent respect, enthusiasm, and understanding throughout every session, and the BSYW team left looking forward to visiting them again.

We are incredibly proud of the children and the mature, positive way they engaged with these workshops. Their excellent attitude and participation were a credit to the school.



Year 6

Year 6 have had Electricity North West in to support our children with understanding the importance (and dangers) of electricity. We created circuits, looked at voltage resistors and even created a human circuit, using our Year 6 children!

Learning at RLA!

Learning Garden 1

🎉🎂 Happy Birthday, Celina! 🎂🎉
This week we had a wonderful time celebrating Celina's birthday with all of her friends in school. Everyone gathered together to sing a cheerful rendition of Happy Birthday, creating a lovely and memorable moment for Celina. There were lots of smiles, excitement, and joy as we celebrated her special day together.
Birthdays are a fantastic opportunity to help children build friendships, share happy experiences, and feel valued within our school community. Thank you to everyone who helped make the celebration so special.
We hope you have had a fantastic birthday, Celina! 🎈🎁🎉

Learning Garden 2

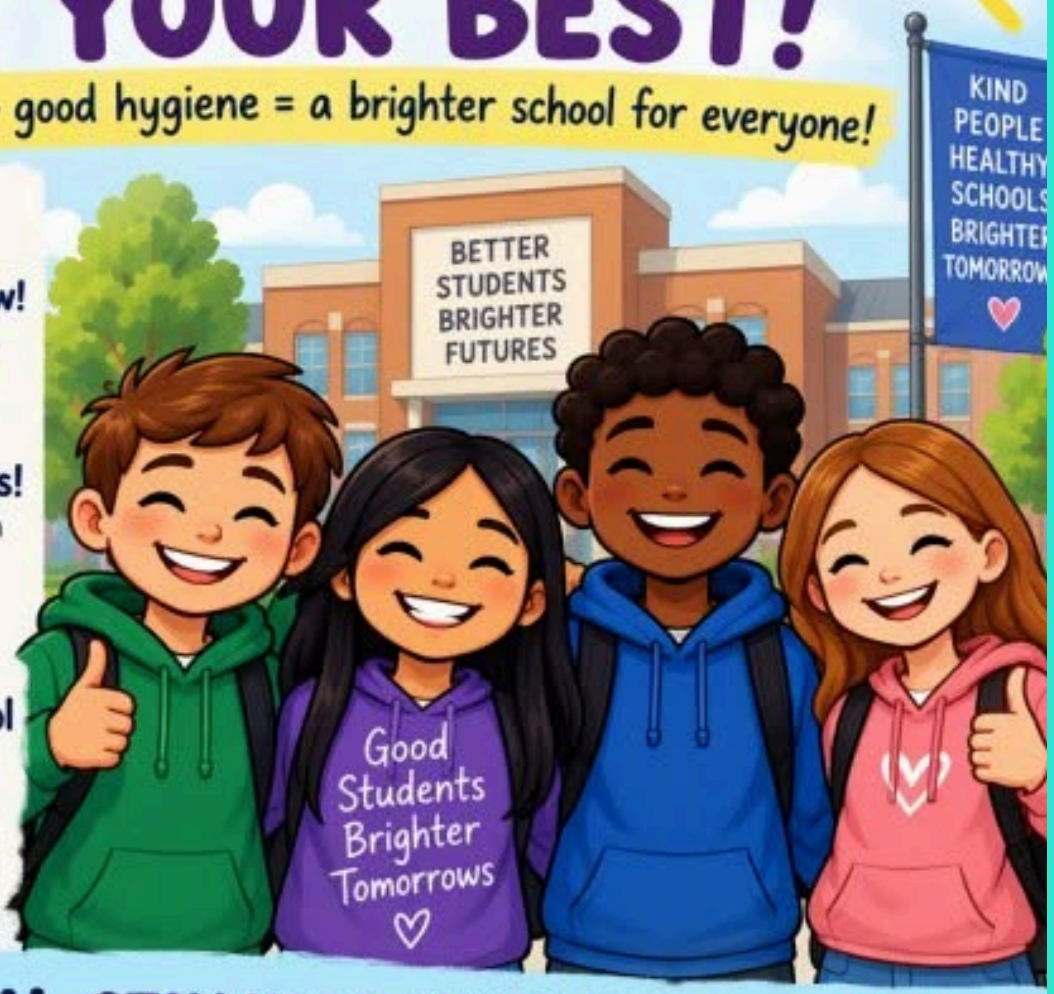
Learning Garden 2 have been really enjoying learning about Islam within our RE lessons. We are very proud of one of our learners for showing us how to perform the salaah. We have tried on Islamic clothing and explored some beautiful prayer mats.

Revoe Learning Academy

BE HERE. BE HEALTHY. BE YOUR BEST!

Good attendance + good hygiene = a brighter school for everyone!

- **Attend school today for a brighter tomorrow!**
  Being in school helps you learn, grow and reach your goals.
- **Every day counts!**
  You don't miss out on important lessons, activities and time with friends.
- **A healthier school starts with YOU!**
  Good attendance helps build a stronger, happier school community.



FLU SEASON: STAY HEALTHY, STAY IN SCHOOL!

Simple habits make a big difference.

WASH YOUR HANDS
Use soap and water for at least 20 seconds.

USE TISSUES AND BIN THEM
Catch coughs and sneezes to help stop germs spreading.

STAY HYDRATED
Drink plenty of water to keep your immune system strong.

GET ENOUGH REST
A well-rested body helps you fight off germs.

KEEP SHARED SPACES CLEAN
Help keep your schoo germ-free by using and cleaning shared spaces responsiblly.

Good Attendance. Healthy Habits. A Stronger Tomorrow.

FESTIVE EXPRESS 2026

TOY DONATIONS NEEDED

Help us make Christmas extra special for local people by donating a new, good quality used, and unused toy.

WHAT WE'RE LOOKING FOR

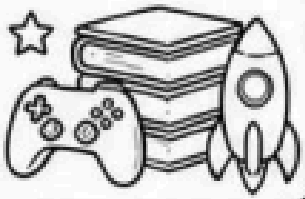
- New, good quality used, and unused toys
- Suitable for children and young people (all age ranges)
- Board games, puzzles, crafts, books, sensory items and gifts
- Unwrapped items only
- Non-violent and age-appropriate items only

SOME IDEAS INCLUDE

- Toys and games
- Board games and puzzles
- Books and craft sets
- Sensory and fidget items
- Dolls and action figures
- Lego and building sets
- Arts & crafts
- Gifts for all ages

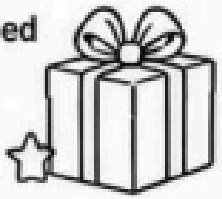
SUITABLE FOR ALL AGES

- Babies and toddlers
- Children
- Teenagers
- Something for everyone!



PLEASE NOTE

- Please donate **unwrapped**
- Non-violent items only
- Age-appropriate items
- Good, clean condition



Please donate to **Community First** on **Abingdon Street, Blackpool**

by Wednesday 2nd DECEMBER

Your generosity helps us bring joy and smiles to local children and families this Christmas.

Thank you!
