

## Swirly Beanstalk

Using a piece of card draw a spiral and cut it out. You can use a selection of small paper to cut leaf shapes and stick them to your spiral beanstalk. Hang it up in a windy place and watch it twist and turn in the wind!

## My Week Book

You can make a small book by folding and stapling some paper. Can you use this to keep a picture diary of your week? Start on Monday and write the day at the bottom of the first page then draw something you did, just like in 'Jasper's Beanstalk'. See if you can do this for all seven days!
