National Teaching Assistants' Day

Happy Teaching Assistants' Day!

THANK YOU

Almighty God, We thank you for the children and young people in our area. Thank you that you love them and that you have given each of them unique gifts and talents. We pray that they would have opportunities to flourish and live life in all its fullness. Amen

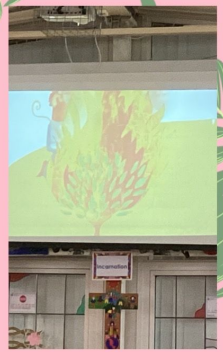
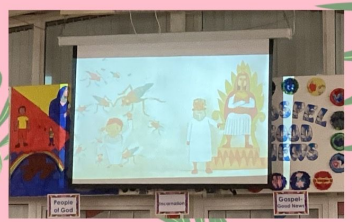
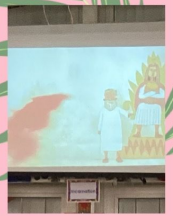
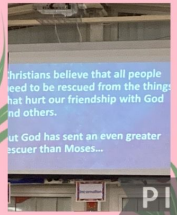
God the Rescuer
PASSOVER









Christians believe that all people
need to be rescued from the things
that hurt our friendship with God
and others.
But God has sent an even greater
rescuer than Moses...

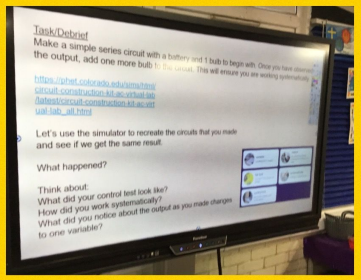
DOES THE NUMBER OF COMPONENTS AFFECT THE OUTPUT OF A CIRCUIT?



Task/Debrief
Make a simple series circuit with a battery and 1 bulb to begin with. Once you have observed the output, add one more bulb to the circuit. This will ensure you are working systematically.
https://phet.colorado.edu/sims/html/circuit-construction-kit-ac-virtual-lab/latest/circuit-construction-kit-ac-virtual-lab_all.html
Let's use the simulator to recreate the circuits that you made and see if we get the same result.
What happened?
Think about:
What did your control test look like?
How did you work systematically?
What did you notice about the output as you made changes to one variable?

The Grace ...

May the grace of our Lord Jesus Christ,
And the love of God,
And the fellowship of the Holy Spirit
Be with us all,
Now and forever more.
Amen
