Progression in Geography Vocabulary

The following words are part of a whole host of work aimed at narrowing the vocabulary gap for our children. At St Bernadette's, we aim to expose all children to a broad range of vocabulary and provide them with the skills to use and apply these within the unit of work they are studying. They will also be immersed in a general vocabulary that is part of the 'sticky knowledge' children will progress with throughout the school and apply to the different geography units of work they are learning about.

General Vocabulary						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
map local area world village town forest left right sea	***As before and …*** ocean country capital city city town countryside North South East West Map Key similar different	***As before and …*** North Pole South Pole Equator globe continent atlas features similarities differences continent climate diverse recreation tourism	***As before and …*** compare contrast conservation human features physical features compass region physical map political map deforestation fieldwork deciduous coniferous geology measure record	***As before and …*** urban rural environment ordnance survey grid reference climate zone temperate tourism erosion sustainable human impact recreation climate change comparison observe	***As before and …*** longitude latitude Tropic of Cancer Tropic of Capricorn Northern Hemisphere Southern Hemisphere time zone Meridian/Greenwich indigenous tribe settlement fair trade trade links	***As before and …*** economic import export immigrant migrant sustainability global economic topographic map natural resources transportation information systems
Challenging						
community	population adaptation climate	compare contrast human features physical features conservation	ordnance survey grid reference climate zone climate change	longitude latitude Tropic of Cancer Tropic of Capricorn	sustainability global economic topographic map	relief digital mapping
