Develop your creativity:

- Read different Greek myths and create a book or comic book of your favourites.
- Make a story map/storyboard/comic strip/animation to retell a known Greek myth.
- Take photos of yourself (and your friends and family!) acting out a Greek myth and create a story board using the photos.
- Design your own mythical creature or Greek hero/heroine. Draw or paint them and write a story about them.
- Make a model of a mythical creature
- Write your own Greek myth with your own characters.
- Create a puppet show theatre for a Greek myth.
- Learn what a trojan horse is and create one!

Extend your research skills:

- Research one Greek myth that particularly interests you. What is the moral of the story? Can you think of a different story that is similar? Can you write a story with a similar moral?
- Design a magazine to tell Greek stories. Add games and quizzes to test the reader on what happened.
- Read a story and create a book review for it.

This term's 'Home Learning' theme is:

It's all Greek to Me!

Hand in date: 5thh July 2024

Spirituality:

Take a walk in nature. As you walk, try to notice the feeling of your feet on the ground, the air on your skin and the breath in your lungs. As you appreciate nature's beauty, think about how you are feeling. Why not write down or draw what you heard, saw and smelt and how you felt inside.

Explore your mathematical skills:

- Create a labyrinth. Show units of measure.
- Design a 'Snakes and Ladders' style game for a Greek myth. Make character counters and a dice for the game. Don't forget to write instructions!
- Design a co-ordinates game based on the story of the Trojan Horse.
- Create a graph to show people's favourite myth or mythical creature.
