

Subject: BTEC Award in Music Practice

The BTEC music consists of three components which make up the full assessment for this course.

Component 1- Exploring Musical Products and Styles

Students will develop their skills and understanding of contrasting genres and styles of music in different practical areas from performance, composition and production.

Students will use the skills that they have been taught at KS3 and develop these over the unit based on the set-assignment for this internally assessed unit.

Component 2: Music Skills Development

Students will develop their skills in 2 of the 3 areas from performance, composition and production.

Students will use the skills that they have been taught at KS3 and within year 9 to develop and extend their skillset on their 2 chosen focus areas based on the set-assignment for this internally assessed unit.

Component 3 – Set-brief assignment that is externally assessed

Students will combine all of their skills developed over components 1 and 2 to complete this unit of work in January of Year 11; this unit will enable students to showcase their creative skillset that they have explored and developed over KS4.

The brief is set by the exam board and is externally assessed.
