

16th September 2022

It's been another great week. The pupils have been accessing the community, collecting conkers on a nature walk, visiting Sainsburys and exploring the park.

This week we have got some new sound buttons on every door to support pupil understanding and to promote independence.

**Our new starters are building up their hours and spending more time in class.
It's great to see their confidence growing.**

Today its National TA day and I'm sure you will join us in thanking our incredible team.

Star Of the Week

Seedlings: Ava

Cedar: Isabelle

Maple: Moina

Elm: Violet

Pine: Beth

Willow: Stanley

Ash: Mohammed

Oak: Hendrix

Woodlands: Muhammad Sufyaan

Dates for your Diary

Strawberry Tea 22/09/2022 13.30 - 14.45

Parents Drop in 28/09/2022 15:30 - 17:00

Our value of the term is:

Welcoming

Ash Class News

What a fabulous start to the autumn term. I can't believe how well this class has settled in this is something you should all be proud of.

This time we are learning about space. This is such an exciting topic and has really excited the children, so let me tell you some of the things that we have been doing over the past couple of weeks.

- In class I have adapted the story aliens love underpants, we have started to retell it to each other and hope that we will be able to re tell part of the story and even write part of the story.
- There have been lots of different sensory based activities to cater for the different types of pupils in ash class. The children thoroughly enjoy attention autism and sent through bingo both of which happened twice a week. We also have a sensory version of aliens love underpants.
- In Maths we have been looking at place value this is a particular focus for quite a few of the pupils as we need to concentrate and looking at how we count and what numbers look like particularly above 10.
- In PE we have been focusing on how to throw. We have been playing games like skittle ball and dodgeball both help us develop the ability to evade while helping us practise our throwing skills.
- in our My World lessons, we have been looking at what planets are and what they are made-up of. We have been naming different planets and we have also been trying to make our own planets out of balloons and PVA glue. next week we hope to paint them.

They have made a great start to the term being super friendly. Over the next couple of weeks, we are looking forward to doing lots more work around space and community visits to the supermarket and museum.

Gluing Balloons and our new roleplay corner!

Who doesn't like to get dressed up

Baking Moon Rocks! (Scones)

Aliens love underpants and playdoh
