

Well we have enjoyed our short week this week, with music, outdoor fun, science, welly walks, minibeast hunts, art and craft and loads of learning tasks!!!

It was so tricky to choose a star of the week because ALL the children have been amazing!

Sensible walking in the park

Concentrating HARD during our hand awareness

Our caterpillars have arrived! We are very excited

Busy busy bees

Attention autism – Making a ladybird!

Science – re cycling (Materials)

### REMINDERS-

Thank you so much for all the contributions for our sensory resource pot. This is very much appreciated!

Our caterpillars have arrived and we have enjoyed watching them grow this week. They are getting bigger each day!!

Sophie 😊 – [smartindale@acorns.lancs.sch.uk](mailto:smartindale@acorns.lancs.sch.uk)

We have had a lovely week again and done some super playing, learning and enjoyed laughs along the way too.

The children are working hard on their communication targets and making steady progress – choice making, requesting and responding in different ways.

We have loved watching the changes to our caterpillars over the week. They have already doubled in size – we can't wait to see them after the weekend!

We have done some excellent participating in PE, sensory circuits, music and story sessions.

We made ladybirds in our art session and had a hunt for minibeasts in our forest school in the rain – we found lots of wriggly worms!! Amelia was feeling very brave and held all sorts of creatures.

We did some super maths outside this week too while the sun was shining!

If anyone has a spare CD player going we are in desperate need of a new one – ours has been dropped and kicked too many times!!

Enjoy the weekend!

From all of the Elm Class Team 😊

Elm class is the best!
