

Ash Class's Weekly News

9th October 2020

This Week...

It's been great to have all the children in again! So much easier to teach to and a pleasure to do!

IN maths this we have carried on with explore quantities further and looked in one more and one less. At the end of the week we played the bus game and I am hoping to send it home to you so you can play it with them over the October holidays.

In Literacy we are starting to record them re-telling the story of the Gruffalo and we are practicing writing the parts of the story out.

IN science we have been exploring how light affects materials and we have been learning what transparent, opaque, and translucent is. What a fantastic week!

Next Week...

We will be doing cave painting using spray bottles.

Reminders

End of term is only 2 weeks away now!

Please do not forget to send back in their News packs

And finally the star of the week is...

Sam

Because of his continued effort with coming on the bus and eating.
