

# Ash Class's Weekly News

10<sup>th</sup> June 2022

## This Week....

This week has flown by. This week we started a new topic in maths, length. We have been measuring wiggly worms to see how long they are some children have been measuring in cubes and other children have been measuring in centimetres. We have started to measure in centimetres, and we have been learning how to hold a ruler to measure accurately. In literacy we have been thinking about different words that we can use to describe things. We will be making our very own insect and we will use our senses to describe it. In baking we made book biscuits, and, in my creativity, we looked at stumping using paint and natural materials. In my world we started to look at the parts of a butterfly and some children looked at how to classify different insects. On Friday we will begin playing maths games again. Some of the children need some practise with taking turns, losing and winning.

Next week – we will be going on our trip to the singing tree in Burnley and then we will head back to Brockholes to create a natural sculpture. We will also continue to learn how to use a ruler to measure.

## Reminders

**Burnley Sculpture walk 14<sup>th</sup> June.**

Snack fund for next term will be £14 as it's a 7 week term. This is vitally important to help support cooking, messy play, toast at Sainsburys and snack time biscuits and juice.

**And finally, the star of the week is... Ethan**

**Super communicating using the eye gaze**
