

# Ash Class's Weekly News

13<sup>th</sup> May 2021

## This Week....

Well, this week we have crammed a lot in. We started the week by filming the news using the green screen and the children really love seeing themselves on the big screen. Then continued our maths work on sort different objects into multiple groups and even started to categorise them ourselves. In science we looked at magnets and used words like attract and repel to describe push and pull. In baking we made banana scones and in Pe we continued our orienteering unit. But what I think all the children have thoroughly enjoyed this week, is designing our own Supertato! The children also started to map out the story so they could write it themselves. We were all very impressed!

## Next Week...

I will be making apple and cinnamon scones and start writing the story of Supertato.

## Reminders

I have sent home a letter for the trip to Hothersall lodge.  
Please read it carefully and send it back into school asap.

31<sup>st</sup> may is a Bank Holiday

## And finally the star of the week is...

Kai! He made a great Supertato and did a fantastic piece of writing to boot. Well done Kai!
