

Ash Class's Weekly News

14th Jan 2022

This Week....

What a jam packed week we have had. We started out the week by continuing our maths work around understanding the part part whole method. We continued to look at number bonds to 10 and then up to 20 using counters to help support our understanding. In PE we started our new topic which is orienteering. We were blindfolded and had to listen to our partners as they helped us move around the hall. In literacy we have continued our story about the little yellow alien Beegu. In baking we made our very own green and yellow moon rocks. In my creativity we read the 'My World' book which helps us understand space and we made our very own cardboard rocket in role play and covered it in foil. In the My World Lesson we explored different planets and listened to the solar system song. We learned about what an orbit was and spoke about how the moon orbits the earth. We then went on to do foil print moons and marvelled planets.

Next Week...

Making our very own moon buggies.

Reminders

Due to positive Covid cases we would advise that you LFT your child daily even they have recently had it.

Snack fund for next term will be £12 as it's an 6 week term This is vitally important to help support cooking, messy play and snack time.

Any unused space toys, kitchen roll tubes and 2lt pop bottles would be greatly appreciated.

And finally, the star of the

week is... Dylan - For being so excited about our new role play area that he even got his rucksack on and pretended that he was an astronaut with an oxygen tank on his back.
