

Willow Class News

This Week...

Wow this week has flown by! Willow Class have all been working really hard, we are very proud!

This week the children have all produced super Numeracy work. Viren was able to identify when a number was missing from the sequence and Pharrell wrote numbers up to 26! Well done boys!

In History we have been focusing on our topic 'The Stone Age'. Willow Class made spears and even managed to catch a Woolly Mammoth... very impressive! During our cookery lesson this week we made vegetable soup, we discussed in class how Stone Age people would have eaten vegetable soup. Everyone worked well as a team chopping and cutting the vegetables.

In our Science lesson we have been learning about senses. This week we focused on the sense 'sight'. We looked at what we could see in the light and if we could see anything in the dark. Dylan suggested to use touches in the dark so we could see each other, great idea! Everyone enjoyed exploring the sensory room with the touches, lots of fun!

And finally...

★ Star of the Week goes to... ★

Ethan for fantastic eye contact with Jenny during his Tac-Pac session! Well done!

Reminders...

Please remember to send in clearly labelled school uniform/shoes, P.E kits and outdoor waterproofs. Thank you in advance.

Hope everyone has a lovely weekend! We can't wait to hear your weekend news on Monday morning! 😊

Look what we've been up to this week...
