

Ash Class's Weekly News

18th March 2022

This Week....

Another fabulous fun packed week in ash class. This week we have moved on to our new maths unit multiplication. We have been looking at how to organise groups of items to find the total. We have then started to use numicon to help us see it's in a different way. We are very good at finding out what the total is. In my creativity we made our very own salt dough aliens. We will use these aliens to help us write our very own story based on Beegu . In my world we looked at shadows and how they are made by a light source. In literacy we wrote a sentence about what our alien looks like and in our colour semantics lesson we wrote about what we did at the museum.

Next Week...

We will be exploring space food and designing our very own space alien

Reminders

Snack fund for next term will be £12 as it's a 6 week term. This is vitally important to help support cooking, messy play and snack time.

And finally, the star of the week is... Pharrell

for super maths work and amazing reading!!!
