

Ash Class's Weekly News

22nd Oct 2021

This Week....

What a busy week we have had and what a fantastic bend to the half term. This week saw us finish using the 10 frames to workout addition problems. All the children have really worked hard at using equipment to solve addition problems. Our next step is to continue to work with numbers around 10 and 20 and make sure that they can count the total amount without miscounting. In literacy we watched our stories of the little green dinosaur and had some popcorn. The children love knowing that their stories were on YouTube. In phonics we looked at the sound m and oi. In RE we looked at harvest and we also made our very own thank you cards. This was to make us think about the things that we need to be thankful for. All of the children thought that they should be thankful for the people that love them the most. In history we created Saxon houses and finally we decorated our door for our Halloween trail which will take place on the first day that we come back to school.

Next Week...

Next week is half term have a fabulous half term and don't forget if you go away anywhere please don't forget to take some pictures and let me know as we always write about what we have done at the weekend.

Reminders

Halloween fancy dress
on the 1/11
Zoo on the 2/11

And finally, the star of the week is...

For being an enthusiastic mathematician.
