

Seedlings Weekly News

W/B 25th April 2022

This week...

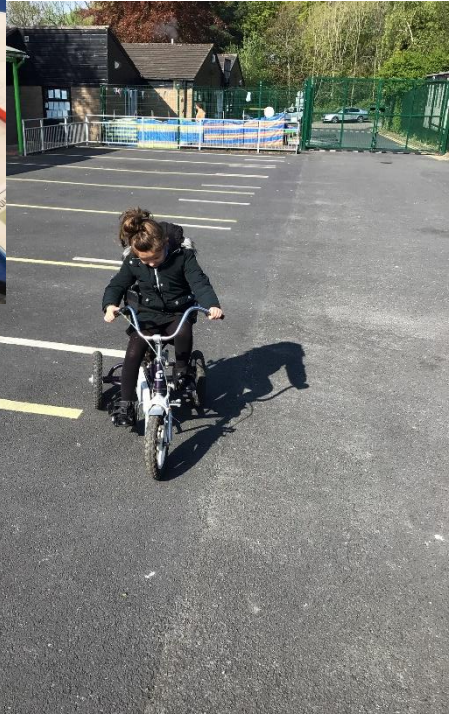

We've had another lovely week. This week we have continuing learning about mini-beasts and we've focused on worms and spiders.

The children have been really engaged with their learning this week. We all loved visiting Forest school, were able to find a selection of bugs and the children were very careful whilst we looked at them.

This week we have painted pictures of spiders and worms; the children made edible worm puddings; we have been working on our fine motor skills; In PE we are working on our coordination and control and been practicing using bats and balloons.

Next week:

We will be learning about butterflies and caterpillars. Our focus will be on the hungry caterpillar.

Reminders:

If the weather continues to be nice and sunny please send in suntan lotion for you child. If they will were a sun hat please send in too.

Monday is bank holiday so school will be closed.

Have a lovely long weekend 😊
