

Pine Class Weekly News

Week beginning: 16/03/2020

This Week

In maths, we have really enjoyed working on the topic of 'mass'. The children particularly loved using balance scales to weigh objects from around the classroom. We used cubes to help us get the idea of units of measure. Jayden's counting was amazing - he had something really heavy on the scales!

In music, we have been learning to sing and play instruments to a song by Adele. If you remember the production at Christmas, you can imagine how well the pupils are doing with their glockenspiels. It is lovely to hear!

It has been lovely to have Zuzanna in our class for the last few days. Pine Class have been really good friends and role-models, and Zuzanna has really cheered everybody up with her fantastic smile.

Some 'WOW!' moments this week - Brooke reading lots of times on an analogue clock; Safaa's reading skills across the curriculum; Harley's great scientific predictions; Jayden's fantastic recounting or recent news; Jenson's kind questions to others; and Lucy-Anne's engagement with others pupils.

As we have some pupils off at the moment, we want to pass on all our best wishes.

Next Week...

We will carry on with lessons as normal. For any pupils who are at home over the next few weeks, there will be suggested activities on our school website under 'Classes - Pine - Pine Work'. These tasks can be adapted as you wish, and they use materials that you most probably have at home.

Reminders

For any pupils who are at home over the next few weeks, there will be suggested activities on our school website under 'Classes - Pine - Pine Work'. These tasks can be adapted as you wish, and use materials that you most probably have at home.

Many thanks.

And Finally...

Stars of the Week

Lucy-Anne

for being particularly kind and helpful this week.

Well done!
