

This week we have had a range of fun learning activities in school, we also enjoyed a fabulous Zoom session on Friday too for some children. They did some super listening and joining in with the musical activities!!

We have been full of smiles this week and working extra hard. We are all improving our ability to focus on given tasks!!

Fine motor skills, colour sorting

We did great movement in PE this week. We practiced some skills like throwing and aiming, balancing and jumping!

Stretchy band warm up!

We loved our Winter Art inspired
Attention Autism session too

The Tiny Seed Sensory Story

REMINDERS-

Thank you to those who have contributed to the class fund, these pennies help us to provide the extra special learning experiences for our children. This week alone we have been through rice, cornflour, shaving foam and paper plates. In addition we have planted seeds and made our own pizzas. These lovely activities are so beneficial to our pupils and we want them to continue to have wonderful sensory rich opportunities.

We really do appreciate all your contributions to help us to provide these learning experiences

If you are yet to send in a donation, this would be very gratefully received (£1/£2 per week)

THANK YOU!! Sophie 😊 - smartindale@acorns.lancs.sch.uk

We have had another fun filled week, working very hard on our IEPs, playing and learning. This week we really enjoyed our giant flower in our sensory story! – We all helped to make this together and it worked a treat!! The children did some wonderful signing and responding to questions, some of them really liked the cold cold snow, but some preferred the lovely warm hot water bottle!(sun)

In attention Autism this week we built a paper plate snowman and splatted 'snowballs' using white paint and bouncy balls! This was lots of fun – all the children were extremely focussed and responsive to the stimuli used!

Our out door session this week involved using bikes, scooters and the wheely board. We encouraged the children to take turns and make some choices (PECs). Unfortunately we are not able to go out and about in the community at the moment so we are making use of the large yard instead.

We made our own snowmen in our art and craft session – lots of gluing and sticking and the children choose a colour for their snowman hat.

We have enjoyed planting our own sunflowers too this week as part of our Science, we will be taking care of these and watching them grow over the next few weeks!

In DT we designed and made our own Pizzas – the children were marvellous – washing and prepping the vegetables, lots of tasting of different toppings too. They chose what shape and what toppings they wanted. They enjoyed eating their pizzas for afternoon snack – what a success!!

We hope you have a lovely long weekend

From all of the Elm Class Team 😊
