

### Project overview

- Students will learn basic Textile techniques So that they are able to make a sublimation printed cushion.
- Students will be taught how to use a sewing Machine and basic embellishment techniques.
- Students will be taught health and safety in the Textiles classroom.

### Building on

This project will build upon learning that has taken place In key stage 2.

### New knowledge learnt in the project

- How to use a sewing machine.
- How to create a design based on a set brief.
- Biomimicry within the design industry.
- What sublimation printing is and how to use a heat press.

### Skills learnt

- Independent thinking skills.
- Problem solving.
- Creative thinking.
- Team working
- Self – managers
- Effective participants.

## Year 8 Textiles Felted landscape

### Project overview

- This project will build upon knowledge and skills learnt in Textiles during year 7.
- Students will be introduced to the wet felting process to make a Felted landscape.
- Students will expand on embellishment techniques, such as applique and embroidery.

### Building on

This project will build upon skills learnt in year 7 Textiles.

### New knowledge learnt in the project

- Embellishment techniques.
- How to do felting.
- Further construction techniques.
- Looking at the work of other artists.

### Skills learnt

- Felting
- Further use of the sewing machine.
- Design skills.
- Analysing the work of others.
- Evaluation skills.
- Creative thinking.
- The role of Textiles in a changing world.

## Year 9 Textiles Festival bucket hat

### Project overview

This project will enable students to build upon construction skills learnt in year 7 and 8, to make a tie-dye bucket hat with hand sewn Patches suitable to be worn at a summer festival.

### Building on

This project will build upon skills learnt in year 7 and 8 Textiles.

### New knowledge learnt in the project

- Resist dye methods
- How to use a commercial pattern.
- Hand embroidery techniques.
- Construction techniques and finishing processes.
- Further applique and embellishment.
- Industrial application of Textiles in the world around us.

### Skills learnt

- Analytical skills
- Creative thinking.
- Practical skills.
- Independent enquirer.
- Self management.
- Designing skills.
- Evaluating skills
- Research skills.
