January 2026

Dear Parents,

Year 4 – Multiplication Tables Check (MTC)

This year, pupils in Year 4 are required to take part in the Multiplication Tables Check (MTC) in June. This government assessed check is to determine whether your child can fluently recall their times tables up to 12 which is important for success in mathematics.

The MTC is an on-screen check consisting of 25 times table questions which are randomly generated. After the practice questions, your child will have 6 seconds to answer each question that appears on screen. On average, the check should not take longer than 5 minutes.

After the check, schools will have access to all pupils' results, allowing those who need additional support to be identified. We will share your child's score with you as we do with all national curriculum assessments. There is no pass mark for the check.

Although you do not need to do anything additional to prepare your child for the check, continuous practise of the times tables at home is beneficial for your child so that they can rapidly recall facts when necessary to accurately perform calculations. If you would like to practise with your child to home, please encourage them to use **TT Rockstars** (their login details can be found at the front of their Reading Diary) as much as possible. In addition to this, you may find the following links useful:

Multiplication Tables Check Practise
