

Subject: A Level Chemistry**Exam Board: AQA**

Paper 1 - 2 hours

Assessment Content

Any content from these modules & practical skills.

Amounts of Substance

Bonding

Energetics

Equilibria

Kinetics

Introduction to organic chemistry

Alkanes

Halogenoalkanes

Alcohols

Organic Analysis

Nomenclature and Isomerism

Compounds containing the Carbonyl Group

Aromatic Chemistry

Amino acids, proteins, and DNA

Structural Determination

Paper 2- 2 hours

Assessment Content

Any content from these modules & practical skills.

Amounts of Substance

Oxidation, reduction, and redox reactions

Thermodynamic

Electrochemical cells

Group 7 The Halogens

Compounds containing the Carbonyl Group

Polymerisation

Chromatography

Atomic Structure

Bonding

Kinetics

Equilibria

Halogenoalkanes

Alkenes

Alcohols

Organic Analysis

Structural Determination

Amines

Amino acids, proteins, and DNA
