

ALSTON MOOR FEDERATION

Acceptable Use Policy - Key Stage 1

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet, tablet devices and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This Acceptable Use Policy is intended to ensure:

- that children will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school ICT systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.

The Federation will try to ensure that pupils will have good access to ICT to enhance their learning and will, in return, expect the pupils to agree to be responsible users.

This is how we stay safe when we use computers:

- I will ask a teacher or an adult if I want to use the computers
- I will only carry out activities that a teacher or an adult has told or allowed me to do.
- I will take care of the computer and other equipment.
- I will ask for help from a teacher or an adult if I am not sure what to do or if I think I have done something wrong.
- I will turn the screen off and tell a teacher or an adult if I see something that upsets me.
- I know that if I break the rules, I might not be able to use a computer.
