Introduction

If you're not sure what options are out there, it's tricky to help your teen choose what to do next. This guide gives you an introduction to what's available after GCSE and sixth form, and why certain options suit some students more than others.

If your teen learns best through practical experience, they may not do as well with academic or classroom-led learning. Similarly, if they enjoy quiet, lecture-led lessons, getting an apprenticeship

and learning on the job may not suit them. We explore how you can help your teen make choices to suit their personality and learning preferences, so they have the best chance of success as they enter the next stage of their educational journey or career path.

This guide is not written so you do the work for them! It's a source of ideas so you feel confident talking to your teen about their future choices.

Options after GCSEs

All 16 year olds must undertake further education until they are 18. This doesn't mean they have to stay on at school or go to college, they can get a job with a training element to it, but they cannot work full-time without some training.

Most teens stay on at school or go to college and take either A levels or BTECs. This usually works well for students that enjoy being in the classroom. However, if your child prefers practical experience, they might achieve better results and be happier by taking a different route towards a career, such as T Levels, an apprenticeship or traineeship. Don't rule out an option because it's not one you know.

Thinking ahead

If your child thinks they know what they want to do when they leave school at 18, this may influence their choices. However, in most cases, they won't have a firm idea of what they want to do (and may not even know whether they hope to progress to further education once they're 18) so it may be a good idea for them to make choices which will give them some experience in different areas, so they can find out what they really do and don't like. For the best chance of success, they should lean toward academic choices if they like classroom learning or vocational options if they prefer practical experience.

Subject choices

There's much more choice at sixth form than GCSE, so there will be many subjects available that are new to them. Don't worry about them taking something they have never studied and then finding out they don't enjoy it or aren't good at it; they can make changes at the start of Y12.

Going into the workplace

If school or college is not for them, apprenticeships offer a great career pathway, with the added benefit of hands-on workplace experience as well as obtaining valuable qualifications.

Don't panic!

It's important to bear in mind that whatever your teen chooses to do after GCSE, whilst it will influence Post-18 options, it will not close any doors. If they make a mistake, there's still plenty of opportunity to change direction (it might mean a little additional work on their part!). If they go straight into an apprenticeship and change their mind later, there's always the chance to go back to full time study further down the line.

Useful links

The Parents' Guide to Post 16 options

Summary:

There are lots of choices available to your child once they've completed GCSEs, so make sure they know what's on offer.

1. A level and IB are more suited to theoretical learning;
2. BTECs and T Levels are great for those who enjoy practical experience and coursework;

3. EPQ offers the chance to earn more UCAS points as well as undertaking a project centred around your child's personal interests;
4. Apprenticeships, traineeships and internships provide on the job training and valuable experience.

T Levels are a two-year vocational qualification equivalent to three A levels

A spotlight on T Levels

You've probably heard of A levels and BTEC, but have you heard of T Levels, a new sixth form qualification introduced in 2020?

What are T Levels?

T Levels are a two-year vocational qualification equivalent to three A-levels. They involve a mix of classroom learning (about 80% of the course time) and practical experience (about 20% of the course time) including a 45 day on-the-job placement in a genuine business. Afterwards, students may go on to university, alternative higher education, another job, an apprenticeship or they may be offered an opportunity with the company where they were placed.

Business in mind

It could be easy to discount T Levels as a credible sixth form choice because they're new and haven't been tried and tested. However, their recent development with input from businesses means they are tailored to meet existing industry needs much more directly than other generic qualifications and this is likely to appeal to future employers as well as preparing students for working life.

Keeping options open

T Levels broaden the study choices for 16 years olds. They can offer a clear path to employment although, should your teen start the course and realise that industry or specialism it is not for them, there are still plenty of options for them to continue higher education or get work in a different industry once the T Level is complete.

There are lots of choices available to your child once they've completed sixth form, so make sure they know what's on offer

Options after sixth form

What your child chooses to do after sixth form (or college) is exciting but can be nerve-racking. There are lots of options available and understanding the pros and cons between different choices can be confusing.

It's not just about deciding whether to go to work or continue further education – although that's a good starting point. Important considerations include how long they want to continue studying, how they will finance living expenses and course fees (and whether you can afford to help them), whether they want to study in a more academic environment or in a more practical environment (such as studying whilst working).

Many qualifications can be built upon, so they may commit to one year of further study and then decide to increase it for another year or two to get a higher qualification. This flexibility can be very useful, particularly for students who are not keen to commit to long-term studies after school, but find that they enjoy it once they've got started. In the case of degrees, they will need to commit to the length of study (minimum three years) from the beginning.

Summary:

There are lots of choices available to your child once they've completed sixth form, so make sure they know what's on offer.

1. Higher education options (such as university or Higher National Diplomas) are more suited to theoretical learning;
2. Apprenticeships, trainee programmes and internship are great for those who enjoy practical experience and coursework and are a terrific way to get first-hand experience of what a job is like;
3. School leaver programmes offer opportunities to join the workplace and begin skills development and careers development through experience as well as study;
4. Other options include taking a gap year, starting their own business or entering the world of work.

The Parents' Guide to Post 18 options - summary (1)

	University Degree	Degree Apprenticeship	Non-degree apprenticeship	Higher education course at College
Qualification type	Bachelor of Arts or Bachelor of Science	Bachelor of Arts or Bachelor of Science	Advanced or Higher apprenticeship	HNDs HNCs, Foundation Courses, Diplomas, Vocational course
Length of commitment	3-4 Years (Some degrees, such as medicine, are longer)	3-4 Years (Some can be longer, even up to 7 years)	6 Months – 3 Years	1 – 3 Years Some are part-time.
Tuition Costs	£££ Students take out a “tuition fee loan” to pay course costs. No repayments are made until the student is earning £25k in the April after graduation. Any outstanding debt is wiped clear after 30 years.	£0 Course costs (at university) are paid by the company and government.	£0 Course costs (usually at college or by an education provider) are paid by the company and government.	££ Tuition fees need to be paid but these are less expensive than university fees. Students can apply for an “advanced learner loan” where repayments are made as a percentage of earnings above a certain threshold. Any outstanding debt is wiped clear after 25 years.
Accommodation Costs and living expenses (i.e. food, book, travel, going out)	£-£££ May receive a “maintenance loan” dependent on parents’ income; however, this is rarely sufficient to cover all costs and students will either need to supplement by working or have help from their parents (or both!).	£-££ A salary is paid, but parents may need to subsidise living expenses, especially if relocating to an expensive area.	£-££ A salary is paid, and shorter apprenticeships may be local so students can continue living at home, but parents may need to subsidise living expenses, especially if relocating to an expensive area for longer apprenticeships.	£ Students can often find suitable courses at colleges commutable from home, but there are still living expenses to be covered.
Alternatives	Company sponsored degrees (they are not an employee but gain work experience from the sponsor company)	Could also consider school leaver programmes (non degree apprenticeships)	Higher education courses	Non degree apprenticeships

The Parents' Guide to Post 18 options - summary (2)

	Traineeship	Job with training	Job without training	Internship	Gap Year	Start a business
Qualification type	To prepare students for work or to go on to further education.	Training usually funded by employer, but check that it is a national recognised qualification, such as NVQ	Going straight into a job offers work experience but not a qualification. However, it is possible to create a personal training plan if desired.	None	Could include a year working for a charity or other employer to gain skills – not just about travelling. Can combine A level retakes in this year.	None, but it's important to have drive, commitment and an idea of what business idea to pursue.
Length of commitment	6 weeks to 6 months	n/a	n/a	1 month to 6 months But some up to a year.	1 year	n/a
Tuition Costs	£0 Training fees are paid by the government.	£0 Training funded by the employer.	£-££ Any training would be self-funded.	£0 Internships are about gaining practical work experience so there are rarely any formal qualifications undertaken.	£0 There are no tuition costs unless retaking examinations.	£-££ It may be useful to take some courses to hone skills when setting up a business. The Prince's Trust and Local Enterprise Partnership offer grants and mentoring.
Accommodation Costs and living expenses (i.e. food, book, travel, going out)	£-££ Not paid to work, but some expenses (such as travel) may be provided. Accommodation costs may be expensive if needing to relocate.	£ Salary provided and jobs are usually within commutable distance from home, though travel can be expensive.	£ Salary provided and jobs are usually within commutable distance from home, though travel can be expensive.	£-££ Legally interns should be paid although many aren't. Some companies may cover travel expenses. Depending on the location, living and travel expenses could be costly.	£-£££ Gap years need not be expensive. Flights and accommodation is usually covered for overseas volunteering. Personal travel can be funded by working for part of the year.	£ Lots of young people start their businesses online, which means minimal start up costs and they can continue living at home.
Alternatives	Job with training, internship or apprenticeship	Traineeship, internship or apprenticeship	Traineeship, internship or apprenticeship	Traineeship, job with training or apprenticeship	Gap Year after university / job / apprenticeship	Start a business whilst working or in education

Levels of Education

In England, Wales and Northern Ireland there are 8 qualification levels (1 - 8) plus an entry level qualification for those just starting. Generally, the higher the level, the more difficult the qualification is. Levels 1-3 are typically taught in schools and colleges.

With so many different qualifications, it can be hard to know what they mean and where they might lead to next. To help you understand, we've created a summary of what the levels mean highlighting academic, vocational and work-based routes to higher education.

Apprenticeships

Apprenticeships can be a fantastic career path, whether started after GCSE or sixth form. They offer the opportunity to combine study with paid employment resulting in a professional qualification. There are no tuition fees (these are covered by the employer and the government) and the salary can cover living expenses. Entry levels vary from 2 (equivalent to GCSE level) to 7 (degree level).

Apprenticeships used to be associated with trade industries (such as electricians, mechanics or plumbers). Nowadays, apprenticeships can be taken in a wide range of industry sectors and provide entry to all types of careers, including accountancy, banking, IT, law, management and television.

Relatively new to the apprenticeship suite are “degree apprenticeships”, offering an earn while you learn route to BSc or BA status. In other words, the end qualification is the same as if your

child had attended university full time, the difference is that they will not have incurred any debt in tuition fees and will finish their degree with robust and transferable workplace skills.

Taking an apprenticeship is not an easy option and competition can be fierce. It takes organisation and dedication to balance work, where your child will be expected to contribute to the same standards as everyone else, and study. Holidays are far fewer than at college or university. However, if they have a more practical, work-related bias towards learning this will suit them well and they will obtain valuable experience which will strengthen opportunities in finding rewarding work when the apprenticeship is over.

Selecting the right apprenticeship will require your child to have reasonable confidence in the type of career they wish to follow although there is some flexibility. So how do you help them decide? We'll guide you.

**GOV. UK
Overview**

UCAS

**The
Parents'
Guide to**

The Parents' Guide to Apprenticeship levels

Typical length
12-18 months

Entry requirements:
None or few

Qualifications obtained:
GCSE, BTEC or equivalent

Who's it for?
Mostly for 16-year-olds with limited or no academic qualifications.

Typical length
3-5 years

Entry requirements:
A levels or equivalent

Qualifications obtained:
Higher national diploma / foundation degree

Who's it for?
Mostly for those who want to qualify for professional career paths without attending university or college. Sometimes referred to as 'school leaver' or 'non-graduate' programmes.

Typical length
12-24 months

Entry requirements:
Usually 5 GCSEs

Qualifications obtained:
A levels or equivalent

Who's it for?
Mostly for 16-year-olds with reasonable academic achievements but who don't want to study in sixth form.

Typical length
3-7 years

Entry requirements:
At least 2 A levels or equivalent

Qualifications obtained:
A BA or BSc degree or higher

Who's it for?
Mostly for those with excellent sixth form results that want to study for a degree or similar whilst working. Aimed at attracting high-calibre candidates to bridge professional skills gaps.

Is an apprenticeship the right choice over full-time education?

Advantages

- ▷ Apprenticeships provide focused and applied training for those who already have a strong interest in a job or industry.
- ▷ Not everyone is suited to academic learning and apprenticeships provide a practical approach to obtaining qualifications.
- ▷ Apprenticeships provide paid employment with a structured approach to learning.
- ▷ Apprenticeships develop key transferable skills which are considered lacking in the labour market.
- ▷ Apprenticeships may provide future employment within the company and working within an organisation may reveal job roles they did not know existed.
- ▷ Gaining work experience and on the job training may provide your child with a competitive advantage when applying for full-time employment.
- ▷ Degree apprenticeships offer the chance to gain a BA or BSc without incurring the debts associated with studying at university.

Considerations

- ▷ Apprenticeships may narrow options early on. Your child will need to have a fairly clear idea of the type of career they wish to pursue.
- ▷ It may be difficult for your child to combine studying with working.
- ▷ The salary of an apprentice can be quite low and your child will also need to consider financing their travel and living expenses if they are not living at home. Furthermore, your child may need to pay back their course fees if they choose to leave their apprenticeship early.
- ▷ Your child may feel that they are missing out on the 'student life' if taking a degree apprenticeship. However, some universities still offer their degree apprentices a strong student experience.
- ▷ Many companies provide graduate schemes for university leavers on completion of their degree.
- ▷ Entering the work place at an early age may lead to fatigue.
- ▷ Degree apprenticeships are still quite new so there is a limited number of vacancies at the moment.

Finding an apprenticeship

Supported by

There's a wide range of ways to seek out apprenticeships and we recommend using a selection of options rather than relying on one.

Government website

Most apprenticeships are posted on the Government's website. By creating an account, your child can set up alerts and filters to see opportunities that are of most interest to them and to be emailed when new opportunities arise. However, not all apprenticeships will appear.

Industry sector

It's smart to check apprenticeships directly on company, university or college websites. If your child doesn't know which of these sites to select, then they should first do some research on which industry sector may be of interest, and then find companies within this sector.

Job boards

National job agencies will also advertise apprenticeships and options can be narrowed to review within local distances from home or specific job types. This might be a particularly good way to seek out apprenticeships in level 3-5 range.

Companies direct

Another alternative is for them to identify companies that are of interest and check those websites for apprenticeships.

Be warned! Applications to well-known international companies (such as Amazon, Coca-Cola, Facebook, Google, Virgin) will be highly competitive; however, it might be a good starting point for identifying what's included in the apprenticeship and seeking out other companies that provide similar content.

School careers advisor

If your child is still at school or college, then getting them to speak with their careers adviser is a good move. Careers advisors are often the first to hear from companies advertising new apprenticeships

For more information on apprenticeships and how to help your child research, apply and prepare for one, you may be interested in The Parents' Guide to Apprenticeships 2022 - 2023

University and UCAS

Attending university can offer students a great foundation for their future; both in obtaining further qualifications and in providing a protected environment to transition from teenager to adult. Selecting the right university and course can seem daunting as there are lots of opportunities available. The “right” university means the right university for them: one which offers courses they’d like to study; where they will fit in and feel comfortable; one that will stretch their abilities without breaking them; and one where they will feel safe and happy. The “right” university will differ from child to child – even within the same family.

Of course, whilst going to university is first and foremost about getting a higher-level qualification, it offers much more than that. It’s about learning to research independently, create professional relationships, develop lasting friendships, live without parental supervision, take up lifelong hobbies and interests. It’s learning to be a grown-up: self-reliant, resourceful and confident. It’s a time when you’ll get to watch your teen become an adult. So how to get it right? We’ll guide you.

The Uni
Guide
website

University
guide

Researching the right course

With over 30,000 courses available the right course is out there – it just might be tricky to find it! There is plenty of information about university courses available so it's worth researching diligently before making choices, rather than students relying on "my teacher recommends it", "my parents took it", or "I like the university".

When to step back

This research is something that your child should undertake – not you on their behalf. Avoid the temptation to use this as an opportunity to investigate options you would have liked to take given the chance. It may be tough with the benefit of hindsight and experience, but try not to forget it's your child's life and their choices, not yours.

Finding focus

Thinking of favourite subject choices is a good way to narrow focus, but don't forget many of the subjects offered at degree level aren't covered in sixth form options, so don't let your child restrict themselves to only considering topics they've already studied. Of course, if they

are already set on a certain career path, their choice of degree may be obvious, which can be helpful. If not, some thought and reflection on things they enjoy that might apply to the workplace can give direction so some research on jobs might help streamline options by providing guidance on routes into industry.

Too much choice?

If they are struggling with a starting point, investigating what's of interest to them is a good place to start. You think they spend too much time playing video games? How about a BA in Computer Games Design – it can be a lucrative business post-graduation. Not academic but loves sports? BA in Sports Management. A passion for understanding how things work? How about MEng(Hons) in Product Design Engineering? Always reading crime thrillers? Perhaps they'd enjoy a BA in Criminology.

Predicted grades

Your child should research courses with entry requirements that are closely aligned to their predicted grades, allowing for some aspirational and safe choices either side.

London Business School

Minds alive

Suggested starting points

There is plenty of information about university courses available, and whilst it's up to your child to do the research, as parents you can help guide them by checking that the courses they short-list fit their personality. For example, a child that likes to be active and enjoys practical

studies and getting involved is likely to do better on a course that has plenty of experiential learning rather than one that is largely based around lectures and seminars. Here are some suggestions for things to consider when deciding whether a course meets your child's needs:

Activate your career plan. Join a world leading business school.

Our Early Career masters programmes are specifically designed to help recent graduates build the confidence, skills and business acumen needed to stand out to top recruiters.

That's why 96% of our 2021 cohort received a job offer within three months of graduating.

london.edu/grad-career

Is your child academic or practical?

- Do they enjoy being in the classroom?
- Do they enjoy learning in a studio or outside?
- Do they enjoy writing essays and researching topics or prefer to make and produce things?

Which school subjects do they enjoy?

- Is there a particular part of a school subject they have enjoyed?
- Do they have a natural flair for a subject?
- If they enjoy more than one subject, are there any common themes?

What are your child's hobbies?

- Is your child particularly passionate about any music, sport or art related activities?
- Think about your child's personality traits
- Try to think outside the box - do they have a particular interest in current affairs? Gaming? Helping others?

Has your child expressed interest in a particular career?

- Try to think of subjects that will help them pursue this career without narrowing their options too much if they change their mind later

UNIVERSITY OF
PORTSMOUTH

Open Days

Saturday 2 July 2022

Wednesday 6 July 2022

Saturday 8 October 2022

Saturday 5 November 2022

Saturday 10 December 2022

port.ac.uk/july-open-day

Preparing for open days

There's nothing like an in-person visit to get a feel for a university. If you get the chance, make sure your teen visits the universities they want to apply to, and if possible, go with them.

Plan ahead

To get the best value out of university open days, prepare in advance. Open days often include a variety of lectures, walking tours and presentations, so your child should check what's on offer and plan accordingly.

In addition, they should make a list of questions that they want to ask each university so they can compare and contrast differences to help with their decision making. Which questions should they ask staff, which are better aimed at students, or should they ask the same questions to both? Don't forget, even if they can only take part in a virtual open day, there will still be an opportunity to ask questions.

Speak with students

Whilst open days provide an opportunity to receive information on the degree course and the university itself, nothing beats hearing from someone with first-hand experience of what it is like to study there. It's a good idea for both of you to speak to current undergraduates if the opportunity arises - ask them questions about teaching quality, societies, accommodation and the local area.

Prepare questions in advance

Do not be afraid to ask questions. Open days provide the perfect opportunity to receive direct answers to questions that may be difficult to find online. Both you and your child should think of some questions in advance rather than thinking on the spot.

Walk and observe (if possible)

Walk around the campus and university town or city. Try to encourage your child to get a good feel for the environment. Can they imagine themselves living there? Do the students look happy? Is it a friendly place to be?

Don't stress if you can't attend

If you and your child are unable to make the official open day, then you could arrange a private viewing. Call the admissions team to arrange a suitable date and time to visit. Whilst you are likely to miss out on some of the lectures and presentations that are organised during an open day, you may still be able to speak with a member of staff from the relevant faculty. There may also be virtual open days and virtual tours available online.

**ONE IN TEN STUDENTS WILL TAKE
A GAP YEAR AFTER FINISHING
SCHOOL**

Other choices

Traineeships

Traineeships are much shorter and last six weeks to six months. They are a great way to prepare for apprenticeships (if your child doesn't have the minimum entry requirements) or to get first-hand experience of what a job is like.

School leaver programmes

School leaver programmes offer opportunities to join the workplace straight after sixth form studies and commence skills development and career progression through experience as well as studying to obtain a nationally recognised qualification. Entry requirements vary from employer to employer.

Gap year / deferred entry

Taking a year out between school and university can provide the opportunity to find out a little bit more about personal preferences rather than being directed by schools, colleges (and parents!). It's also a good opportunity to find out how your child fares fending for themselves.

A gap year can be taken while entry to university is being deferred, once a place has been accepted (allowing a year between leaving school and starting university), or if university is not the next step at all.

Traditionally, this is a year spent travelling overseas, but it needn't focus exclusively on that. Volunteering and work experience can also be incorporated and inform your child's likes and dislikes, as well as giving them valuable first-hand experience in a variety of areas they may not have had chance to try out. However, for some a gap year can be distracting and, if not well-planned, could prove somewhat directionless, which is unlikely to be beneficial.

Some may want to enter the world of work straightaway or, if they haven't achieved the results they had hoped, they could always try retakes or other sixth-form subjects.

Leaving home

Whether they're heading to university, to an apprenticeship or off to full-time work, there may come a time when your child needs to live away from home so they can fulfil their dreams. Make sure they're prepared to fend for themselves by teaching them healthy food choices, how to cook, how to budget and how to balance their time between work and play while they're living at home with you.

What to pack

When leaving home for the first time, your child may need help deciding what they'll need to take with them. This means everything from work clothes, casual clothes, course materials, laptops, phones to bedding, cooking equipment and all the appropriate paperwork such as bank accounts, TV licences, insurance and new travel passes. It will make their life easier if they know how to plan ahead and it will make you feel more comfortable knowing they are well-prepared.

Try to keep to the basics when it comes to kitchen utensils and try to purchase items, which are easily identifiable - bright colours or patterns will help your child keep track of their items, especially if they are in shared accommodation.

If you are helping your child move, then it may be a good idea to factor in some time for a trip to the local shopping centre for any last minute purchases, such as household cleaning items.

Don't forget:

Important documents

- Passport
- Driving licence
- All university / college and accommodation correspondence
- Apprenticeship contract
- Insurance documents
- Bank details
- Parking permit

Electricals

- Laptop and chargers
- Mobile phone
- Headphones
- Extension cables

Stationery and course books

Kitchenware

- Cutlery and crockery
- Kitchen utensils
- Family recipes
- Cook books

Bedroom

- Coat hangers
- Duvet, pillow, mattress protector and sheets
- Wash kit
- Photographs of family & friends

BEDROOM

Essentials:

- Alarm clock
- Bin (small)
- Books
- Coat hangers
- Mirror

Extras:

- Beanbag
- Cushions
- Door wedge
- Extra storage
- Family photos
- Over door hangers
- Plant
- Rug
- Wall art / posters

SLEEP

Essentials:

- Bed sheets
- Duvet
- Duvet set
- Mattress protector
- Pillows
- Pillow cases

Extras:

- Diffuser / oils
- Mattress topper
- Night lamp
- Warm blanket

BATHROOM

Essentials:

- Bath towels
- Deodorant
- Hairbrush
- Hand towels
- Nail clippers
- Razor
- Sanitary towels
- Shampoo
- Shower gel
- Toilet roll
- Toothbrush / paste
- Wash bag

Extras:

- Bath mat
- Flip flops
- Hair dryer
- Make-up
- Moisturiser

FIRST AID

- Complete sets

Essentials:

- Antibacterial wipes
- Antiseptic cream
- Hot-water bottle
- Hydration salts
- Painkillers
- Plasters
- Sewing kit
- Torch
- Tweezers

KITCHEN

- Complete sets

Essentials:

- Baking tray
- Bowls
- Cheese grater
- Chopping board
- Cling film
- Corkscrew
- Cutlery
- Glasses
- Knives
- Mugs
- Plates
- Pots and pans
- Scissors
- Tin foil
- Tin opener
- Tea towels
- Wooden spoons

Extras:

- Casserole dish
- Colander
- Masher
- Measuring jug
- Plastic bag sealers
- Recipe books
- Scales
- Shot glasses
- Slow cooker
- Spice jars
- Tupperware
- Vegetable peeler
- Whisk
- Wok

CLOTHING

Essentials:

- Casual clothes
- Evening clothes
- Fleece
- Gym clothes
- Smart clothes
- Pyjamas
- Smart shoes
- Sports equipment
- Socks
- Rain jacket
- Swimwear
- Thermals
- Trainers
- Underwear
- Winter clothes

HOUSE KEEPING

Essentials:

- Coat hangers
- Door wedge
- Iron
- Laundry bag
- Washing powder
- Wet wipes

Extras:

- Drying rack
- Mini vacuum
- Laundry basket

STUDY

Essentials:

- A4 folders
- File Dividers
- Highlighters
- Notepad / paper
- Pens and pencils
- Plastic wallets
- Post-it notes
- Stapler
- White-tac

Extras:

- Calculator
- Desk lamp
- Diary / planner

DOCUMENTS

Essentials:

- Bank accounts
- CV and references
- Discount cards
- Exam certificates
- NHS number
- NI number
- Passport
- Passport photos
- Uni paperwork

Extras:

- TV licence

ELECTRICS

Essentials:

- Batteries
- Chargers
- Extension lead
- Laptop
- Laptop case
- Multi plug adaptor

Extras:

- Mouse
- Keyboard
- Printer
- Printing ink
- Speakers
- Television

FUN & GAMES

Extras:

- Bicycle
- Board games
- Computer games
- Dress-up costumes
- Fairy lights
- Games console
- Gym equipment
- Photo albums
- Playing cards
- Polaroid camera
- Projector
- Recipe books
- Sports equipment

NCW 2023 06-11
MAR 23

A welcome from NCW...

National Careers Week is a celebration of careers guidance and free resources in education across the UK. The aim is to provide a focus for careers guidance activity at an important stage in the academic calendar to help support young people leaving education.

With youth unemployment remaining high and employers citing that young people are ill prepared with the basic skills needed for employment, there has never been a bigger need for

careers guidance to be promoted and celebrated in education.

National Careers Week is the perfect platform to advise and inspire the next generation as they enter the world of work. National Careers Week, which takes place next year between the 6th - 11th of March 2023, encourages education providers to bring together students, local employers and advisers through careers events and activities.

During National Careers Week it is up to every school, academy and college to offer careers advice and guidance to their students and parents/carers with support from NCW in providing free resources, information on current career opportunities and advice on activities and exercises to run.

Access to NCW resources doesn't stop at the end of #NCW2023, the dedicated websites are available

with resources, video content - [NCWTV.co.uk](https://www.ncw.co.uk/ncw-tv) - and other tools throughout the year! Take a look!
