

At Archbishop Temple Church of England High School our aim is to prepare pupils for the world of work, and for life in the community beyond school.

OUR iPad PROGRAMME

In September 2014 Archbishop Temple Church of England High School launched a parental consultation after conducting research into the impact of 1-to-1 devices on learning and teaching. During the recent pandemic, we've seen that this programme has ensured access to learning materials for all and has enabled teaching to continue with far less disruption.
