Developing A Level Pedagogy Work Groups

Develop improved teaching approaches for A level Mathematics

What is involved?

These Work Groups explore and deepen participants' pedagogic content knowledge, empowering teachers to enhance their classroom practice and to influence department-wide A level teaching. They are an engine for improving student understanding of A level Maths, and driving their subsequent success. Participants will design and trial classroom activities, sharing and reflecting on their experiences with others in their Work Group.

The project involves a direct working partnership between the Maths Hubs Network and the Advanced Mathematics Support Programme (AMSP).

Who can take part?

Participants will be established teachers or leaders of A level Maths who are looking to deepen their pedagogical understanding and lead the development of pedagogy in A level teaching with other colleagues. They must be teaching a current A level Maths group.

This Work Group would be particularly useful for those who may have already completed other A level subject knowledge and pedagogy CPD.

Find out more

Search **developing A level pedagogy** online or contact your local Maths Hub:

Email - jspringhall@carmel.bhcet.org.uk

Benefits

- Your students will have a deeper conceptual understanding of the A level Maths content
- You will understand the purpose of the Overarching Themes, including use of technology, and their impact on teaching and learning in A level Maths
- You and your department will have a better understanding of how ideas behind teaching for mastery can be used in the classroom
- You and your department will have a deeper understanding of content pedagogic knowledge for A level Maths

The **Work Groups**, run by the Maths Hubs Programme, in partnership with the AMSP, are **free** to participating schools.
