

Fully funded

Secondary Mastery Specialist Programme

Professional development to enable you to introduce and embed teaching for mastery across your department

What is involved?

This two-year programme supports secondary maths teachers to become experts in teaching for mastery and lead change within their schools.

Teachers will strengthen their classroom practice and learn how to support colleagues. They will explore the NCETM's Essence of Mathematics Teaching for Mastery, working closely with their subject leader to embed these approaches across the department. Participants will also complete the **NCETM Professional Development Lead Programme**, gaining the skills to lead effective CPD.

Who can take part?

Secondary maths teachers in state-funded schools in England with QTS and at least two years' teaching experience. Applicants should be committed to develop their own teaching and support improvement across their department.

Find out more

Search **secondary mastery specialist programme** online or contact your local Maths Hub:

Email - jspringhall@carmel.bhcet.org.uk

Benefits

- You will deepen classroom practice and help students build deep, connected mathematical understanding
- You will complete the NCETM PD Lead Programme and learn how to support colleagues through CPD
- You will take part in around 7.5 days of professional development, including workshops, school-based activity and collaborative planning
- You will observe teaching for mastery in other secondary and primary schools

The **programme** is fully funded by the Maths Hubs Programme, so is **free** to participating schools.
