Funded

Targeted Support in Mathematics

Intensive

Support for leaders to implement change and maximise the impact of Maths Hubs professional development

What is involved?

Schools taking part will receive bespoke support from a Maths Hub Intensive Support Partner (ISP). The ISP will work closely with school leaders to build capacity, create a supportive culture, and lay strong foundations for improving maths teaching and learning. Together, the ISP and school will explore, plan, deliver and sustain a tailored improvement plan.

Funded support is available to provide release time for staff involved in developing and delivering the improvement work, ensuring it fits the school's context.

Who can take part?

Schools may be referred to their local Maths Hub for intensive support that do not currently have the capacity to engage with the standard Teaching for Mastery Programme.

To ensure a positive impact on their teaching and learning, schools need to be committed to making long-term improvements in maths, and to work closely with their local Maths Hub over a number of years. This includes a commitment to joining a Teaching for Mastery Programme in future years.

Find out more

Contact your local Maths Hub to discover what is available in your region.

Email - jspringhall@carmel.bhcet.org.uk

Benefits

- School leaders will be supported to implement and sustain change in a focused area
- School leaders will confidently assess and review the culture, systems and practices supporting maths in their school.
- Your school will go on to develop a sustained relationship with your local Maths Hub

Targeted Support is funded by the Maths Hubs Programme, so is **free** to participating schools who are suitable for referral and able to make the required commitment.
