**YEAR 4, 5, 6
KENDAL MOUNTAIN FESTIVAL**

Dear Parents/Carers,

We are very excited to be taking the students from years 4, 5 and 6 to the Kendal Mountain Festival Schools' Session on Friday the 22nd November.

This is a two-hour session especially curated for schools as part of the renowned festival and is always a really exciting mix of speakers and short films about exploring and adventure in the natural world.

The final programme is yet to be finalised but this year's host is Dr Maggie Aderin-Pocock, the inspirational British space scientist and presenter of Sky at Night.

Please bring a packed lunch from home or order a sandwich through the usual School Hub website as we will leave school at 11am and eat our lunch in Kendal before our session begins.

We will return to school slightly after the end of the school day at 3:45pm.

Please follow the link to give consent for your child to attend
