June 2026

Year 4 Multiplication check - Key Information:

The national times table check is a test for all year four pupils which takes place between the **Monday 1st June to Friday 12th June 2026**. The purpose of the check is to determine whether your child can fluently recall their times tables up to 12, which is essential for future success in mathematics.

It is an on-screen check consisting of 25 times table questions. Your child will be able to answer 3 practice questions before taking the actual check. They will then have 6 seconds to answer each question. On average, the check should take no longer than 5 minutes to complete.

Why are times tables important?

Times tables are fundamental in supporting children and underpin everything within Maths. It is vital that all children know their multiplication facts up to 12×12 .

Knowing the multiplication facts up to 12×12 , will give them the essential knowledge needed to be proficient with Years 5 and 6 Curriculum.

How can you support your child at home?

- Encourage children to play Times Table Rockstars as often as possible. Small 5-minute daily sessions will help children to learn times tables more than one long session a week. The soundcheck is very similar to the multiplication check.
- Quiz your child at home regularly. This could be when making dinner or on the journey to school
- Display a poster with times tables facts on at home. Identify patterns within the multiplication tables.
- Create flash cards with your children and let them play with friends, siblings, grandparents. They could write the answer on the back and test themselves.
- Chanting their times table is an excellent way to learn them. They could do this each time they walk up the stairs.

Any times tables practise that the children can do at home will really support them to become proficient in their times tables and help them with their everyday maths learning.

Kind Regards,

The Year 3 & 4 Team.
