

## Arnside School Design Technology Progression Document

\*Additional information, including further detail regarding the progression of designing, making and evaluating products, can be found in the Design Technology Associations Scheme of Work 'Projects on a Page' documents below. As a school, we have chosen to use this scheme to help us develop our own bespoke and progressive Design Technology Curriculum.

|                        | <b>EYFS<br/>Nursery / Reception</b>   | <b>KS1<br/>Yrs 1&amp;2</b>   | <b>Lower KS2<br/>Yrs 3,4&amp;5</b>   | <b>Upper KS2<br/>Yr 6</b>  |
|------------------------|---|--|--|--|
| <b>Food Technology</b> | <p><b>Snack time / circle time / adult led sessions</b></p> <p>Examine a range of fruit/vegetables.</p> <p>Handle, smell and taste fruit and vegetables and describe them verbally.</p> <p>Try new things and talk about likes and dislikes.</p> <p>Always wash hands before cooking, tie back long hair and wear an apron.</p> <p>Use simple utensils and skills such as washing, peeling and slicing.</p> | <p><b>Fruit and Vegetables – Layered Fruit Dish and Soup</b></p> <p>Examine a range of fruit/vegetables.</p> <p>Handle, smell and taste fruit and vegetables in order to describe them through talking and drawing.</p> <p>Evaluate existing products to determine what the children like best; provide opportunities for the children to investigate preferences of their intended users/suitability for intended purposes.</p> <p>Know about and follow basic food hygiene practices when handling food including the importance of following instructions to control risk.</p> <p>Use simple utensils and skills such as washing, grating, peeling, slicing, squeezing.</p> <p>Know about healthy eating advice including eating more fruit and vegetables.</p> <p>Design, Make and Evaluate a layered fruit dish.</p> <p>Design, Make and Evaluate a type of soup.</p> | <p><b>Healthy and Varied Diet - Packed Lunch Product and Hot Cross Buns</b></p> <p>Investigate a range of food products.</p> <p>Carry out sensory evaluations on the contents of the food.</p> <p>Gather information about existing products available relating to your product. Visit a local supermarket and/or use the internet.</p> <p>Find out how a variety of ingredients used in products are grown and harvested, reared, caught and processed.</p> <p>Learn to select and use a range of utensils and use a range of techniques as appropriate to prepare ingredients hygienically including the bridge and claw technique, grating, peeling, chopping, slicing, mixing, spreading, kneading and baking.</p> <p>Follow existing recipes to practise food preparation and cooking techniques.</p> <p>Use basic food hygiene practices when handling food.</p> <p>Design, Make and Evaluate a product for a packed lunch.</p> <p>Design Make and Evaluate a type of hot-cross bun.</p> | <p><b>Celebrating Culture and Seasonality – Breads from around the world</b></p> <p>Use first hand and secondary sources to carry out relevant research into existing products to include personal /cultural preferences, ensuring a healthy diet, meeting dietary needs and the availability of locally sourced/seasonal/organic ingredients.</p> <p>Carry out sensory evaluations of a variety of existing food products and ingredients relating to the project and present results in e.g. tables/graphs/charts and by using evaluative writing.</p> <p>Research key chefs and how they have promoted seasonality, local produce and healthy eating.</p> <p>Measure out, cut, shape and combine (e.g. knead, beat, rub and mix) ingredients.</p> <p>Use a range of utensils safely and hygienically.</p> <p>Practise techniques by following a basic recipe to prepare and cook a savoury food product.</p> <p>Ask questions about which ingredients could be changed or added in a basic recipe such as types of flour, seeds, garlic, vegetables. Consider texture, taste, appearance and smell.</p> <p>When using a basic dough recipe, explore making different shapes to change the appearance of the food product.</p> <p>Design, Make and Evaluate a type of bread.</p> |

|          | EYFS<br>Nursery / Reception  | KS1<br>Yrs 1&2   | Lower KS2<br>Yrs 3,4&5   | Upper KS2<br>Yr 6  |
|----------|--|--|--|--|
| Textiles | <p><b>Creative area provision enhancements</b></p> <p>Use a range of threading boards and toys.</p> <p>Staple thin paper together to make hand puppets.</p> <p>Attach things using glue.</p> <p>Use a hole punch to cut holes.</p> | <p><b>Template and joining Techniques - Finger Puppets</b></p> <p>Investigate and evaluate existing finger puppets looking at fabrics, joining techniques, fastenings and finishing techniques.</p> <p>Pin the fabric to the templates or paper patterns.</p> <p>Draw round a given finger puppet template onto felt using chalk.</p> <p>Cut out the fabric pieces for the product.</p> <p>Practise using a range of joining techniques e.g. running stitch including threading own needle, stapling, lacing and gluing.</p> <p>Use running stitch to join the two fabric pieces.</p> <p>Practise using a range of finishing techniques e.g. sewing on buttons, 3-D fabric paint, gluing sequins, printing.</p> <p>Design, Make and Evaluate a finger puppet that can be used in the small world area.</p> | <p><b>2D Shape to 3D Product - Holder for something with fastener.</b></p> <p>Investigate a range of textile products that have a selection of stitches, joins, fabrics, finishing techniques, fastenings and purposes, linked to the product they will design, make and evaluate.</p> <p>Think about products from the past and what changes have been made in textile production and products e.g. the invention of zips and Velcro.</p> <p>Disassemble appropriate textiles products to gain an understanding of 3-D shape, patterns and seam allowances.</p> <p>Use a range of stitching techniques.</p> <p>Sew two small pieces of fabric together with a seam allowance.</p> <p>Use a textile product they have taken apart to create a paper pattern using 2-D shapes.</p> <p>Choose from a range of fabrics considering user and purpose.</p> <p>Experiment with and use a range of decorative finishing techniques e.g. appliqué, embroidery, fabric pens/paints, printing.</p> <p>Design, Make and Evaluate a holder with a fastener for something precious.</p> | <p><b>Combining Different Fabric Shapes- Coastal Animal Souvenirs.</b></p> <p>Investigate, analyse and evaluate a range of existing fabric animal souvenirs e.g. key rings, magnets, cuddly toys etc.</p> <p>Disassemble a product and evaluate what the fabric shapes look like, how the parts have been joined, how the product has been strengthened and stiffened, what fastenings have been used and why.</p> <p>Investigate properties of textiles through investigation e.g. exploring insulating properties, water resistance, wear and strength of textiles.</p> <p>Develop children's needle threading skills and experience of joining textiles using a range of stitches. If possible, allow children to use a sewing machine to join fabrics under close supervision.</p> <p>Sew and shape curved edges by snipping seams.</p> <p>Tack or attach wadding or stiffening.</p> <p>Know how to start and finish off a row of stitches.</p> <p>Make a 2-D paper pattern using a grid or tracing paper to create a 3-D dipryl mock-up of a chosen product.</p> <p>Pin a pattern on to fabric ensuring limited wastage, leaving a seam allowance and use different cutting techniques.</p> <p>Use computer-aided design (CAD) by using on-line pattern making software to generate pattern pieces.</p> <p>Investigate using art packages on the computer to design prints that can be applied to textiles using iron transfer paper.</p> <p>Design, Make and Evaluate a coastal souvenir that could be sold in a local shop.</p> |

|                   | EYFS<br>Nursery / Reception   | KS1<br>Yrs 1&2  | Lower KS2<br>Yrs 3,4&5  | Upper KS2<br>Yr 6  |
|-------------------|---|---|---|--|
| <b>Mechanisms</b> | <p><b>Creative Area Provision</b></p> <p>Use scissors to cut paper and use glue and masking tape to join paper.</p> <p>Make simple flaps and hinges with card and paper.</p> <p>Assemble vehicles with moving wheels using construction kits.</p> <p>Explore moving vehicles through play.</p> <p>Design, make and evaluate (verbally) junk / other models for a specified user and purpose.</p> <p>Paint / decorate junk / other models.</p> | <p><b>Sliders and Levers – Moving Christmas Cards</b></p> <p>Use scissors to cut out paper and card and use glue, tape, paper fasteners and split pins (pre-cut holes) to join paper and card.</p> <p>Explore, use and make sliders and levers.</p> <p>Design, make and evaluate a Christmas card, including a slider or Lever, for a close family member.</p> <p><b>Vehicles</b></p> <p>Explore and use wheels, axles and axle holders including fixed and freely moving axles.</p> <p>Use a saw to cut wooden batons.</p> <p>Use cardboard triangles and glue to build 3d structures.</p> <p>Use glue to attach wheels to wooden batons.</p> <p>Make fixed and freely moving axels.</p> <p>Select from and use a range of materials and components such as paper, card, plastic and wood according to their characteristics.</p> <p>Design, Make and Evaluate a vehicle that could be used by a character in a story.</p> | <p><b>Leavers and Linkages - Moving Posters</b></p> <p>Use scissors to cut out shapes from paper and card accurately.</p> <p>Use a ruler to measure and draw required shapes.</p> <p>Use split pins and make holes using plasticine and a sharp pencil.</p> <p>Join paper and card with tape, including double sided, and glue with increasing accuracy.</p> <p>Identify a lever, linkage, input, output, fixed and unfixed pivots.</p> <p>Explore and make a range of levers and linkages.</p> <p>Design, make and evaluate a poster, including a level and linkage, to advertise a current event.</p> <p><b>Product / Event Advertising using a CAMS mechanism.</b></p> <p>Make models using different types of CAMs kits.</p> <p>Use a hand drill to make holes for off centre CAMS.</p> <p>Develop measuring, marking, cutting, shaping and joining skills using hacksaws, the woodwork bench clamps, card triangles and to construct wooden frames or card housings, as appropriate.</p> <p>Use tools and equipment safely and accurately.</p> <p>Design, Make and Evaluate a mechanism that could be used to advertise a new product or book or a upcoming event.</p> | <p><b>Gears and Pullies – Bridges</b></p> <p>Investigate, analyse and evaluate existing everyday products and existing or pre-made toys that incorporate gear or pulley systems. Use videos and photographs of products that cannot be explored through first-hand experience.</p> <p>Using a construction kit, explore combinations of two different size gears meshed together.</p> <p>Investigate the direction and speed of rotation focusing on how the size of the driver gear affects the speed of the follower gear.</p> <p>Build a working circuit that incorporates a battery, a motor and a handmade switch, such as a reversing switch.</p> <p>Demonstrate the accurate use of tools and equipment including cutting and stripping wire, and making secure electrical connections.</p> <p>Know about the dangers of mains electricity.</p> <p>Draw a pictorial representation of the circuit or draw a circuit diagram using correct symbols.</p> <p>Develop measuring, marking, cutting, shaping and joining skills using junior hacksaws, G-clamps, bench hooks, square section wood, card triangles and hand drills to construct wooden frames, as appropriate.</p> <p>Design, Make and Evaluate a new bridge / addition to the existing viaduct that would allow trains, walkers and cyclists to use it.</p> |
