

Make a Dancing Ghost!

Equipment needed

- a piece of tissue paper
- a piece of normal paper
- a balloon
- scissors
- a head of hair

Method

1. Cut out a ghost shape using the tissue. Try to make it about 4cm long. If you are using 2-ply tissues, peel apart the 2 layers to get the tissue as thin as possible.
2. Cut out a ghost shape using the normal paper. Again, try to make it about 4cm long.
3. Lie your ghost shapes on a flat surface.
4. Blow up the balloon and tie it. Then rub it really fast through your hair for about 10 seconds. This will create a static charge.
5. Slowly bring the balloon near your ghosts and they should begin to rise. With a little practice you should be able to get your ghost to rise, float and even dance!

Which ghost was the better dancer?
