How does every person count?

In the news this week

India has started one of the world's biggest counting projects, its national census. People across the country will be asked questions about their homes and communities to help build a picture of life in India today. The information collected will help leaders make decisions about services and support for more than 1.4 billion people.

Things to talk about at home ...

- > Why do you think governments count people?
- > What information might be important to know about a town or place? Why?
- > A census counts people using numbers. What are some ways people count that cannot be measured by numbers?
