How much should the weather influence our decisions?

In the news this week

Scientists are monitoring a climate trend called El Niño, which begins in the Pacific Ocean and can affect weather in different parts of the world. It can bring heavy rain and flooding to some countries, while others may experience very hot, dry weather. Experts are helping communities understand what might happen in their area so they can be ready, if needed.

Things to talk about at home ...

- > What is your favourite type of weather and why?
- > Have you or anyone at home ever had to change your plans because of the weather?
- > What would you pack if you didn't know whether it would be rainy or sunny?
- > Why might some people need to prepare more carefully for certain types of weather?
