Is an e-reader better than a book?

J W AllrightsimageBROKER/Shutterstock

In the news this week

A study from the University of Valencia, in Spain, found that print reading could boost skills by six to eight times more than digital reading, for example, on an e-reader or tablet. The study, published in the Review of Educational Research, also found that while there is a negative relationship between digital reading and comprehension for primary school pupils, the relationship turns positive for secondary school-aged pupils.

Things to talk about at home ...

- > Do you enjoy reading? If so, what type of books?
- > Talk to someone at home about the types of books they like to read.
- > Do you think you would prefer to read printed books, or books on an e-reader?
- > Do you think that one day, e-readers will replace books?
