

Dear Parent/Guardian

At Astley Park school we use an application called 'Evidence for Learning (EfL)' to record your child's learning. We take snapshots of your child's learning throughout their time at Astley Park School and then upload them weekly onto a 'Journal' to create a learning journey.

### **Parent View Portal**

Parent View Portal access allows us to regularly share your child's work, achievements and wow moments with yourselves. These will include a comment from the staff and photographic evidence which you will be able to view online.

### **Annual Reports**

Evidence for Learning is also our method of sharing your child's annual report. You can view the report online, download a copy or print directly from your Parent View Portal. You can also send us feedback via the Parent View Portal.

To access your child's learning journey, please complete and return the reply slip below. In doing so, you will receive two automated emails from 'TheTeacherCloud' one containing a link to your child's Parent View Portal and the other with your password. You can change the password to one of your own choice when you first login.

### **Support / Updates**

To keep you updated and provide support we have a dedicated EfL page on our school website <https://www.astleypark.lancs.sch.uk/parents-carers/evidence-for-learning>

If you have any questions about your child's EfL, please do not hesitate to contact their Class Teacher.

Many thanks

---
