

ATAM Academy – Geography Curriculum

"As One"

Apply for University through UCAS or alternative post 18 courses

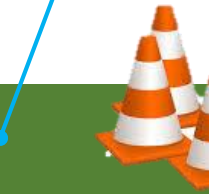

YEAR 13

Look at all the different options you have to include religion, philosophy and ethics in your further education

Go to university to enhance your social science knowledge and get a degree

Revise for and sit your ALEVELs feeling confident

YEAR 12

Check out some amazing places

Consider summer work experience and voluntary work to enhance your learning

Reflect on your journey in Social sciences so far

Topic 1 People and the biosphere

Why is the biosphere so important to human wellbeing and how do humans use and modify it to obtain resources?

Topic 3 Making geographical decisions

Attend intervention sessions

Consider the format of GCSE examinations and refine revision techniques

Sit your GCSEs feeling confident

YEAR 11

Firm up your post 16 pathway

Topic 2 Consuming energy resources

How can the growing demand for energy by met without serious environmental consequences?

Revise for and sit your Y11 mock exams

Topic 4 Reteach & Revision

Why are places and people changing in the UK?

Topic 4 The UK's evolving Physical Landscape

Why does quality of life vary so much

What is the scale of global inequality and how can it be reduced?

Topic 2 Development dynamics

How does the world's climate system function?

Topic 1 Hazardous Earth

Topic 6 The UK's evolving human landscape

What are the threats to forest biomes and how can they be reduced?

Topic 5 Forests under threat

Why does the physical landscape of the UK vary from place to place?

What are the causes and challenges of rapid urban change?

Topic 3 Challenges of an urbanising world

How is ONE of the world's emerging countries managing to develop?

How are extreme weather events hazardous for people?

Topic 5 Climate Change

How can places prepare?

Topic 6 GCSE introduction

How do we contribute?

What are the theories of climate change?

How is Asia changing?

YEAR 9

Topic 1 Development

How is global wealth distributed?

What are the 17 goals set to save the world?

Why do we have misconceptions about Africa?

Topic 3 Ecosystems

What is the difference between an ecosystem and a biome?

What are slums?

How is sediment moved along the coast?

Topic 6 Coasts

How does river shape the landscape?

Topic 5 Rivers

How do we investigate glacier?

Topic 4 Glaciers

Is the Middle East developed or not?

Topic 2 Africa

How have parts of Africa developed?

What are the physical & human features of Africa?

Why are biomes distributed differently?

How do plants and animals adapt?

Topic 4 Asia

Topic 3 The Middle East

What are the consequences of overfishing?

Why do people migrate?

Topic 1 Population

YEAR 8

What is the population structure of Russia?

Topic 6 Russia

What happens when two tectonic plates meet?

Topic 5 Tectonics

What is air pressure and how does it affect the weather?

How do we measure and record the weather?

Where does our water come from?

What are the 4 spheres of the earth?

What are the physical features of the UK?

Topic 1 Map skills

What else can maps tell us?

How can we find places on a map?

How can Geography be broken down?

Build a solid foundation in the learning of the three types of Geography

Take a tour through your Geography Learning journey

The beginning of a lifelong love of learning to navigate the world around us

Welcome to Geography
