

Year 3 Newsletter

Autumn 1

We would like to give a very warm welcome to all our new pupils in Year 3! Moving into KS2 can be tricky and daunting, but the children have arrived in Year 3 full of enthusiasm and ready to learn. Y3 have some fantastic areas of learning to discover starting with 'Stone Age, Bronze Age and Iron Age.'

Topic – 'Stone Age, Bronze Age and Iron Age'

Join us as we discover all the many ages of the Earth!

From the Palaeolithic era c750,000BC to a more modern Neolithic era c2500BC, Year 3 will be learning how early man evolved over the ages. The Stone, Bronze and Iron Ages are full of interesting facts, changes and developments. We will take a journey back in time over the next few weeks and use lots of exciting books linked to the different ages.

It's going to be exciting to see where we came from and how we have evolved!

Continuing on from last year, attendance at school is absolutely vital to a child's learning journey. Please make sure you encourage your child to attend school every day and on time. Each child's attendance is important to the whole class and school target. Let's be the best year group!

Other learning in Year 3

Maths: focusing on understanding number and place value. Our aim is to have a great, in-depth knowledge of number and solve problems related to place value, addition and subtraction before moving onto multiplication and division.

Reading – this half term we will be focussing on developing our phonic knowledge which will allow us to read more complex and exciting texts. We have lots of brilliant fiction and non-fiction books to delve into.

P.E. days:

3J – Monday/Friday

3D – Tuesday/Thursday

3P – Wednesday/Friday

Remember to bring a pair of trainers if your school shoes are not appropriate for PE

Make sure you bring a change of footwear and appropriate clothing for the colder weather.

In Year 3 we are preparing the children to complete the Multiplication Tables Check (MTC) in Y4.

As part of this process, we would love to get all the Year 3 children practising on Times Tables Rock Stars when they are able to do so. It is a fun, interactive way to learn times tables and will benefit them massively as they move through the year.

Reading

This year we really want to encourage reading at home with your child.

It is such an important part of their learning and a time when they can read for pleasure. Therefore, we ask that you listen to your child read as often as possible. It doesn't have to be a book. They could read a webpage, newspaper or e-book.

If your child has read a book at home and really enjoyed it, let us know through Class Dojo. Send us a picture of them reading and they could write a short paragraph about why they liked the book so much! It would be fantastic to share this with other pupils in their class.

Badsley is a real champion of 'Reading for Pleasure, so find a brilliant book and start reading!

Come on Year 3!

Important Websites

Below are some of the websites we would like the children to spend some time on to develop their times table knowledge, improve their understanding of new vocabulary and try new activities across a range of subjects. Your child will be given all the relevant log in details for these sites as soon as possible.

- Time tables rock stars
- Purple Mash
- www.code.org – try this website to develop basic coding skills.

We are a friendly team in year 3. If you have any concerns or questions, please have a quick word on the yard or message us using Class Dojo and we will get back to you as soon as we can!

Thank you for your support at the start of this year!

Mr Doran, Mr Jacklin, Miss Powell and Mrs Jacobs 😊
