

Year 4 Spring 2 Newsletter

Hello everyone! We're thrilled to welcome you to Spring 2. The children worked incredibly hard last term and we can't wait to see their continued growth and creativity!

Yorkshire Sculpture Park

Due to a change in circumstances, our planned visit to the Yorkshire Sculpture Park will unfortunately no longer be able to take place.

We are sorry for any disappointment this may cause. The Year 4 team is currently exploring alternative opportunities to enrich the curriculum and support other topics later in the year, and we look forward to sharing further details with you in due course.

Year 4 Curriculum

This term we will be continuing with some of our topics and starting new ones too:

Geography: The Amazon: Rivers and Rainforests.

Maths: Fractions and decimals.

Writing: Dilemma stories and setting descriptions all about the Amazon rainforest.

Science: Animals and their habitats.

...and lots more!

P.E Days

4C: Thursday (indoor),

Tuesday (outdoor)

4L: Monday (outdoor), Wednesday (indoor)

4M: Monday (indoor), Wednesday (swimming)

Please ensure your child's P.E. kit is in school for these days.

Swimming

4M have been doing tremendously well with their swimming lessons this term. We are all so pleased with their progress and determination!

Please ensure children have their swimming kit and earrings are removed.

4M - Wednesday afternoons to continue

4C will start in May time - paperwork to follow closer to this date.

Y4 Multiplication Check

To support children for the Multiplication Check (in June), please could you promote TTRS at home; this test has a similar layout to this website.

Thankyou

Growing Together; Aiming High
