Class of the week: 3TS

What a whirlwind of a week it has been for 3TS! From the depths of the Stone Age to the modern-day farm, our students have been busy exploring, creating, and questioning the world around them.

History & Creativity

We were absolutely blown away by the Stone Age projects brought in from home. The creativity on display was incredible, thank you to all the families who supported these masterpieces! To keep the "hands on" theme going, we also put our baking hats on again in DT, learning the art of making bread. The classroom smelled divine!

A Visit from the Farm

A huge thank you to our local farmer, Katy, who visited us! 3TS proved to be quite the investigative journalist, asking insightful questions about her daily routine and what it really takes to run a farm.

Sweet Science

In Science, we explored geology using... Starburst! By chopping them into "sediment" and using heat to press them together, we created our very own sedimentary rocks. It was a delicious way to see those clear geographical layers form right before our eyes.

Red Nose Day

The classroom was a sea of red today as we dressed up to support Red Nose Day. It was wonderful to see everyone coming together for such a great cause.
