EQUALITY POLICY

INTRODUCTION

This policy sets out Balshaw's Church of England High School's approach to promoting equality, as defined within the Equality Act (2010). It covers age, sex, race, disability, religion or belief, sexual orientation, pregnancy, those undergoing or who have undergone gender reassignment and our approach to community cohesion.

THE SCHOOL CONTEXT

Balshaw's Church of England High School, in Leyland, is an average Local Authority mixed maintained Church of England secondary school. The vast majority of students are of white British heritage and a small number come from a range of black and Asian backgrounds. The school has lower numbers than is usual of students whose English is at an early stage of development, who have learning difficulties or other disabilities or who are entitled to free school meals. The school population is stable and students do not tend to move on once a place has been secured.

RATIONALE

Balshaw's CE High School is an inclusive faith school where our primary focus is on the wellbeing and progress of every child in our school community, and where all members of our community are considered to be of equal worth. Every person in our school community has been made in the image of God (Gen 1:27) and is loved unconditionally by God. Everyone is equal in the sight of God and therefore we seek to love one another as Jesus loved others. Our school is a place where we seek to serve others and all in their unique difference can able to thrive.

We believe that the Equality Act provides a framework to protect people from discrimination, to support our commitment to valuing diversity, tackling discrimination, promoting equality and fostering good relationships between people. It also ensures that we continue to tackle issues of disadvantage and underachievement of different groups.

AIMS AND VALUES OF THE POLICY

The school aims to provide equality and excellence for all in order to promote the highest possible standards. The core values on which the policy is based include:

- a culture of respect for others
- promoting equality by recognising and celebrating differences between people
- a community where students are well prepared for life in a diverse multi-cultural society

The aims of this policy are:

- to ensure that all members of the Balshaw's community can achieve their potential free from intolerance, stereotyping and prejudice
- to ensure that students treat others with respect and are aware of their rights and responsibilities within the Balshaw's community
- to ensure that staff are aware of their rights and responsibilities, and that they feel supported in dealing with prejudice of any kind

We recognise that these duties reflect international human rights standards as expressed in the UN Convention on the Rights of the Child, the UN Convention on the Rights of People with Disabilities, and the Human Rights Act 1998.

We recognise and respect difference.

Treating people equally does not necessarily involve treating them all the same. Our policies, procedures and activities must not discriminate but must nevertheless take account of differences of life-experience, outlook and background, and in the kinds of barrier and disadvantage which people may face, in relation to protected characteristics.

We observe good equalities practice in staff recruitment, retention and development.

We ensure that policies and procedures should benefit all employees and potential employees, for example in recruitment and promotion, and in continuing professional development. We recognise that certain roles in school will have genuine occupational requirement (GOR) for the post holder to be a practising Christian and ensure effective assessments of each role are carried out to establish whether a GOR applies.

We aim to reduce and remove inequalities and barriers that already exist.

In addition to avoiding or minimising possible negative impacts of our policies, we take opportunities to maximise positive impacts by reducing and removing inequalities and barriers that may already exist

Society as a whole should benefit.

We intend that our policies and activities should foster greater social cohesion and greater participation in public life of those with protected characteristics.

Objectives

The school uses the School improvement planning process to set objectives for all aspects of school life. These objectives are set having due regard to this policy

PURPOSE OF THE POLICY

The School's Equality Policy provides a framework to pursue its equality duties to have due regard to:

- eliminate unlawful discrimination, harassment and victimisation
- advance equality of opportunity between people who share a protected characteristic and people who do not share it.
- foster good relations and positive attitudes between all characteristics and different groups in all of its activities.

Through the Equality Policy, the school will seek to ensure that no students, staff, parents, guardians or carers or any other person through their contact with the school receives less favourable treatment and are not discriminated against and are given equality of opportunity.

A protected characteristic under the Equality Act covers the protected characteristics listed below:

- age (for employees not for service provision)
- disability
- race
- sex (including issues of transgender and those undergoing or who have undergone gender reassignment)
- maternity and pregnancy
- religion and belief
- sexual orientation
- marriage and civil partnership (for employees)

The Equality Act requires all public organisations, including schools, to eliminate unlawful discrimination, harassment and victimisation, advance equality of opportunity between different groups and foster good relations between different groups. This means that our school cannot discriminate against students or treat them less favourably because of their sex (gender), race, disability, religion or belief, gender reassignment, sexual orientation or pregnancy or maternity. Age and marriage or civil partnership are also protected characteristics but are not part of the school provisions related to students.

This policy describes how the school is meeting these statutory duties and is in line with national guidance. It includes information about how the school is complying with the Public Sector Equality Duty and also provides guidance to staff and outside visitors about our approach to promoting equality.

When developing the policy, we took account of the DfEE guidance on the Equality Act 2010 and also the Ofsted Inspection Framework 2012, which places a strong focus on improving the learning and progress of different groups and on closing gaps in standards. In preparing the policy, we have taken note of the fact that Ofsted has a statutory duty to report on the outcomes and provision for students who have special educational needs and those who are disabled.

Policies (P)

Links to other policies and documentation

We ensure that the principles listed above apply to all of our policies and practice including those that are concerned with:

- Pupils' progress, attainment and achievement
- Pupils' personal development and wellbeing
- Teaching styles and strategies
- SMSC and PSHE
- Admissions and attendance
- Staff recruitment, retention and professional development
- Care, guidance and support
- Special educational needs
- Behaviour, discipline and suspensions
- Bullying and addressing prejudice related bullying
- Working in partnership with parents, carers and guardians
- Working with the wider community

We also ensure that information about our responsibilities under the Equality Act are included in our school development plan, self-evaluation review, the school prospectus, school web site and newsletters.

Although this policy is the key document for information about our approach to equalities in line with the Public Sector Equality Duty, we ensure that information about our responsibilities under the Equality Act are also included in our school development plan, self-evaluation review, the school prospectus, school website and newsletters.

There are also references in the behaviour, admissions, SEN and anti-bullying policies, as well as minutes of meetings involving governors, the whole staff and the Senior Leadership Team and School Council. The Equality Act also applies to schools in their role as employers, and the way we comply with this is found in our recruitment policy.

WHAT ARE WE DOING TO ELIMINATE DISCRIMINATION, HARASSMENT AND VICTIMISATION?

We take account of equality issues to admissions and suspensions, the way we provide education for our students and the way we provide access for students to facilities and services. We are aware of the reasonable adjustment duty for disabled students, designed to enhance access and participation to the level of non-disabled students and to stop disabled children being placed at a disadvantage compared to their non-disabled peers.

The Headteacher ensures that at all appointment interviews, due regard is given to this policy so that no-one is discriminated against when it comes to employment, promotion or training opportunities. We take seriously the need to consider the equality implications when we develop, adapt and review any policy or procedure and whenever we make significant decisions about the day to day life of the school. We make a record of each specific equality consideration and this is available for review if required. We actively promote equality and diversity through the curriculum and by creating an environment which champions respect for all. Our admissions arrangements are fair and transparent, and we do not discriminate against students by treating them less favourably on the grounds of their sex, race, disability, religion or belief, sexual orientation, gender reassignment, pregnancy or maternity.

BEHAVIOUR, SUSPENSIONS AND ATTENDANCE

The school policy on Behaviour for Learning (rewards, sanctions and suspensions) takes full account of the new duties under the Equality Act. We make reasonable, appropriate and flexible adjustment for students with a disability. We closely monitor data on suspensions and absence from school for evidence of over-representation of different groups and take action promptly to address concerns.

ADDRESSING PREJUDICE AND PREJUDICE-BASED BULLYING

The school challenges all forms of prejudice-based bullying which stands in the way of us fulfilling our commitment to inclusion and equality. These are:

- prejudices around disability and special educational needs
- prejudices around gender and sexual orientation, including homophobic, transphobic and transgender attitudes

- prejudices around race, religion or belief, travellers, migrants, refugees and people seeking asylum

There is guidance in the staff handbook on how prejudice-related incidents should be identified, assessed, recorded and dealt with. We treat all bullying incidents equally seriously.

We keep a record of difference prejudice-related incidents and provide a report to governors and the local authority about the numbers, type and seriousness of prejudice-related incidents at our school and how we dealt with them. We review this data termly and take action to reduce incidents. Students know the sanctions attached to prejudice-based bullying.

WHAT ARE WE DOING TO ADVANCE EQUALITY OF OPPORTUNITY BETWEEN DIFFERENT GROUPS?

We know the needs of our school population very well, and collect and analyse data in order to inform our planning and identify targets to achieve improvements. We have procedures, working in partnership with parents and carers, to identify children who have a disability through our new intake meetings and transition meetings with primary schools. We collect data and monitor progress and outcomes of different groups of students and use this data to support school improvement. We take action to close any gaps, for example for those making slow progress in acquiring age-appropriate literacy and numeracy skills.

We collect, analyse and publish data:

- on the school publication by gender and ethnicity
- on the percentage of students identified as having a special educational need and/or disability and by their principal need or disability
- by year group – in terms of ethnicity, gender and proficiency in English
- on inequalities of outcome and participation, related to ethnicity, gender and disability and proficiency in English
- by students identified by Ever6

We publish an analysis of standards reached by different groups at the end of each key stage:

- white British
- ethnic minority groups
- all free school meals and Ever6
- English as an additional language
- all special educational needs
- special educational needs at school action and school action plus
- special educational needs statements
- travelling children
- looked-after children
- known AGT
- particular primary schools (Leyland Methodists)

We also collect, analyse and use data in relation to attendance, inclusion and suspension of different groups in school.

We are aware that the legislation relates mainly to current but also to future students – we will for example be sufficiently prepared if a visually-impaired, hearing-impaired or gypsy Roma traveller pupil joins our school.

We avoid language that runs the risk of placing a ceiling on any students' achievements or that seeks to define their potential as learners such as 'less able'. We use a range of learning and teaching strategies that ensure we meet the needs of all students. We track, monitor and provide support to students at risk of underachieving. We are alert, sensitive and proactive about the potentially damaging impact of negative and discriminatory language in matters such as race, gender, disability and sexuality.

In addition to avoiding or minimising the possible negative impacts of our policies, we take opportunities to maximise positive impacts on all within the school community by reducing and removing inequalities and barriers that may already exist between, for example:

- disabled and non-disabled people
- people with learning disabilities and those without
- people of different ethnic backgrounds
- people of different cultural backgrounds
- people of different religious backgrounds
- people of different sexual orientation
- girls and boys

Policies (P)

We ensure equality in our school curriculum so that all students can access a broad and balanced curriculum, removing barriers to participation when necessary.

WHAT ARE WE DOING TO FOSTER GOOD RELATIONS?

We prepare our students for life in a diverse society and ensure there are activities across the curriculum that promotes the spiritual, moral, social and cultural development of our students. We teach about difference and diversity and the impact of stereotyping, prejudice and discrimination through PSHE and citizenship and across the curriculum.

We use materials and resources that reflect the diversity of the school, population and local community in terms of race, gender, sexual identity and disability, avoiding stereotyping. We promote a whole school ethos and values that challenge prejudice-based discriminatory language, attitudes and behaviour. We provide opportunities for students to appreciate their own culture and celebrate the diversity of other cultures. We include the contribution of different cultures to world history and that promote positive images of people. We provide opportunities for students to listen to a range of opinions and empathise with different experiences. We promote positive messages about equality and diversity through displays, assemblies, visitors and whole school events, eg anti-bullying week.

OTHER WAYS WE ADDRESS EQUALITY ISSUES

We maintain records of all training relating to the equalities, eg narrowing the gap. Our monitoring records include evaluations of aspects of equalities. We keep minutes of meetings where equality issues are discussed. We have a rolling programme for reviewing all of our school policies in relation to equalities and their impact on the progress, safety and wellbeing of our students. All policies are reviewed annually. The implications for equalities of new policies and practices are considered before they are introduced.

In order to ensure that the work we are doing on equalities meets the needs of the whole school community, we:

- review relevant feedback from the annual parent questionnaire, parents' evening, School Council meetings, prefect review meetings, Balshaw's Association meetings, governors' meetings
- secure and analyse responses from staff surveys, staff meetings and training events
- review feedback and responses from the children and groups of children, from the School Council, PSHE lessons, whole school surveys
- analyse issues raised in annual reviews or reviews of progress on individual education plans, counselling sessions, mentoring and support
- ensure that we secure responses and feedback at governing body meetings and from the governing body's sub-committee groups

PUBLISHING EQUALITY OBJECTIVES (see school development plan)

The objectives which we identify represent our school's priorities and are the outcome of a careful review of and analysis of data and other evidence. They also take into account national and local priorities and issues. We evaluate our success in meeting the public service equality duties by the extent to which we achieve improved outcomes for the different groups. We produce equality data analysis which inform our discussions about the equality objectives.

Our equality objectives for 2017-20 are:

1. Admissions - To develop a process to better engage with all communities in our local area and obtain figures for breakdowns of the protected characteristics in order to assess.
2. Attainment - To explore and understand the issues further so that the school can begin to narrow the gap.
3. Attendance - To explore and understand the reasons for the absence and what support can be given to individual students with disabilities to improve attendance rates.
4. Suspensions – To maintain our low number of suspensions across all categories of students on the protected characteristics list.
5. Prejudice-related incidents – To raise awareness of offensive language with any prejudicial connotations and promote positive attitudes towards alternative lifestyles and all differences between young people and all diverse groups.
6. Employment – To employ a more diverse workforce
7. Employment – To ensure we maintain a professional workforce.

Appendix 3 publishes our equality data that is the basis for our equality objectives. These also form part of our school development plan.
