

Gen Juice

Information for **Students & Parents**

Refreshing drinks. Less waste. Smarter choice.

Gen Juice provides schools with an award-winning drinks system, giving students a choice of **school-compliant drinks** while **reducing** single-use packaging, litter and transport.

Students **refill directly** from the Drinks Hub using a reusable bottle or cup.

Why Gen Juice?

Better for the school environment

- ✓ Less single-use plastic and cans
- ✓ Less packaging and transportation
- ✓ Less litter around school
- ✓ Encourages refill and reuse
- ✓ Helps reduce the school's carbon footprint

Every refill helps.
Choosing to refill and reuse **reduces waste** and **supports a more sustainable school**

What's in the drinks?

Made for schools

45% JUICE **NO ADDED SUGAR**

- ✓ Natural juices & flavours
- ✓ Added vitamins, minerals & botanicals
- ✓ NO aspartame
- ✓ None of the 14 major food allergens
- ✓ Zero sugar flavoured waters

Complies with school food standards.
Each drink is mixed with **filtered, chilled water** by the Gen Juice Drinks Hub

Small change. Big difference.

Gen Juice is supplied as concentrate, so a small amount of packaged product can make hundreds of drinks.

That means fewer individual bottles and cans need to be transported, stored and disposed of.

4.7 million

single-use plastic bottles
prevented in 2025

Based on Gen Juice 2025 dispensing volumes

Together, **every** refill makes a difference.

Further product, ingredient and nutritional information is available from Gen Juice.
