

Dear Parent/Carer,

Please find attached some useful resources from the Lancashire Safeguarding website relating to online learning and keeping your child safe during these unprecedented times.

There are a number of updates to the Parents and Carers section of the website particularly in terms of supporting parents/carers with resources whilst your child is off school for an extended period

see: <http://www.lancshiresafeguarding.org.uk/online-safeguarding/parents-and-carers>

There is also some safeguarding advice from the South West Grid for Learning on safe remote learning:

<https://swgfl.org.uk/resources/safe-remote-learning>

I also know many parents are active on Twitter and I wanted to highlight that Lancashire Safeguarding are increasingly posting regular updates to support engagement - see:

<https://twitter.com/LancsSguarding>

This is both for Online Safety and wider Safeguarding topics. They will continue to tweet various items from @LancsSguarding over the coming weeks so please use this information to help you as parents if you find it helpful.

I hope this is useful to you at the moment whilst you are all trying to juggle everything.

Take care and stay safe.

Kind regards

Angela Wilson
