

## UK GDPR CYBER SECURITY RESPONSE PLAN

*Non Sibi Sed Aliis*

Your word is a lamp to my feet and a light to my path.  
Psalm 119, vs 105

“Nothing is covered up that will not be revealed, or hidden that will not be known. Therefore whatever you have said in the dark shall be heard in the light, and what you have whispered in private rooms shall be proclaimed on the housetops.” **Luke 12: 2-3**

This policy document and the content contained therein remains the responsibility of the Headteacher and Governing Body of the school. No amendments can be made without their express instructions and they remain the final arbiters in any matters relating to it.

# 1. Introduction

A Cyber Response Plan should be considered as part of an overall continuity plan that schools need to ensure they maintain a minimum level of functionality to safeguard pupils and staff and to restore the school back to an operational standard.

If a school fails to plan effectively then recovery can be severely impacted, causing additional loss of data, time, and ultimately, reputation.

Incidents may occur during the school day or out of hours. The Cyber Response Plan should be tested, with input from key stakeholders, to ensure that in an emergency there is a clear strategy, which has fail-safes when key personnel are unavailable.

The plan should cover all essential and critical IT infrastructure, systems, and networks. The plan will ensure that communications can be quickly established whilst activating cyber recovery. It is also important that the plan is well communicated and readily available.

The document is to ensure that in the event of a cyber attack, school staff will have a clear understanding of who should be contacted, and the actions necessary to minimise disruption.

## 2. Aims of a Cyber Response Plan

When developing a Cyber Response Plan, you will need to consider who will be involved in the Cyber Recovery Team, the key roles and responsibilities of staff, what data assets are critical and how long you would be able to function without each one, establish plans for internal and external communications and have thought about how you would access registers and staff and pupil contact details. This will allow the school:

- To ensure immediate and appropriate action is taken in the event of an IT incident.
- To enable prompt internal reporting and recording of incidents.
- To have immediate access to all relevant contact details (including backup services and IT technical support staff).
- To maintain the welfare of pupils and staff.
- To minimise disruption to the functioning of the school.
- To ensure that the school responds in a consistent and effective manner in order to reduce confusion and reactivity.
- To restore functionality as soon as possible to the areas which are affected and maintain normality in areas of the school which are unaffected.

**This template is for you to use if you do not already have a Cyber Response Plan in place.**

## 3. Risk Protection Arrangement Cover

From April 2022, the [Risk Protection Arrangement](#) (RPA) will include cover for Cyber Incidents, which is defined in the RPA Membership Rules as:

**“Any actual or suspected unauthorised access to any computer, other computing and electronic equipment linked to computer hardware, electronic data processing equipment, microchips or computer installation that processes, stores, transmits, retrieves or receives data.”**

Your RPA cover includes a 24/7 dedicated helpline and dedicated email address. In the event of a Cyber Incident, you must contact the [RPA Emergency Assistance](#).

To be eligible for RPA Cyber cover, there are 4 conditions that members must meet:

- 1. Have offline backups.** [Help and guidance on backing up](#) is available from the National Cyber Security Centre (NCSC) and should ideally follow the 3-2-1 rule explained in the NCSC blog [Offline backups in an online world - NCSC.GOV.UK](#)

It is vital that all education providers take the necessary steps to protect their networks from cyber-attacks and have the ability to restore systems and recover data from backups.

Education providers should ask their IT teams or external IT providers to ensure the following:

- Backing up the right data. Ensuring the right data is backed up is paramount. A suggested list of critical data is included in the Cyber Response Plan template.
- Backups are held fully offline and not connected to systems or in cold storage, ideally following the 3-2-1 rule explained in the NCSC blog Offline backups in an online world: <https://www.ncsc.gov.uk/blog-post/offline-backups-in-an-online-world>
- Backups are tested appropriately, not only should backups be done regularly but need to be tested to ensure that services can be restored, and data recovered from backups.

Further Help and guidance on backing up can be found at: [Step 1 - Backing up your data - NCSC.GOV.UK](#)

- 2. All Employees or Governors who have access to the Member’s information technology system must undertake [NCSC Cyber Security Training](#).** It is available as a 36 minute [video](#) that can be distributed to all staff to watch individually when they have time. There is a link to the certificate in the video description which should be downloaded to show training has been completed. The content is also available as PowerPoint slides and can be watched by groups of staff as part of an INSET day. Completion can be recorded centrally for all staff on the compliance platforms that schools currently use to record mandatory training, such as safeguarding as it provides an audit of completion. If the training is being delivered to a number of staff a register should be kept, which all staff attending sign against their name confirming they have undertaken the training. **In the event of a claim the Member will be required to provide this evidence.**

- 3. Register with [Police CyberAlarm](#).** Registering will connect Members with their local police Cyber Protect team. In the majority of cases, a cyber-alarm software tool can be installed for free to monitor cyber activity. Where installed the tool will record traffic on the network without risk to personal data. Installation of the software tool is not a condition of cover as it is not yet possible for it to be installed for all settings.

4. **Have a Cyber Response Plan in place.** A template is available for you to use to draft a school-specific plan if you do not already have one. It can be downloaded from the [RPA Information & Documents page on the TopMark Claims Management website](#), from the [RPA members portal](#) or by emailing [RPA.DFE@education.gov.uk](mailto:RPA.DFE@education.gov.uk)

For full terms and conditions of Cyber cover, please refer to the relevant [Membership Rules](#) on gov.uk.

## 4. Preparation and Additional Resources

### Preventative Strategies

It is vital education providers regularly review their existing defences and take the necessary steps to protect their networks. In addition to the 4 conditions of cover detailed above, there are several suggested measures that schools can implement to help themselves to improve their IT security and mitigate the risk of a cyber-attack:

- Regularly review IT Security Policy and Data Protection Policy.
- Assess the school's current security measures against [Cyber Essentials](#) requirements, such as firewall rules, malware protection, and role based user access. Cyber Essentials is a government-backed baseline standard, which we would encourage all RPA members to strive towards achieving wherever possible.
- Ensure Multi-Factor Authentication (MFA) is in place: A method of confirming a user's identity by using a combination of two or more different factors.
- Implement a regular patching regime: Routinely install security and system updates and a regular patching regime to ensure any internet-facing device is not susceptible to an exploit. This includes Exchange servers, web servers, SQL servers, VPN devices and Firewall devices. Ensure that security patches are checked for and applied on a regular basis. Vulnerabilities within Microsoft Exchange Servers have been the root cause of many cyber-attacks in the last six months. It is highly recommended that on-premises exchange servers are reviewed and patched/updated as a high priority and moving to an Office 365 environment with MFA if possible.
- Enable and review Remote Device Protocols (RDP) access policies: The use of external RDP access to a device is not recommended and allows attackers to brute-force access to any device that is externally accessible. Mitigating measures are:
  - If external RDP connections are used, MFA should be used
  - Restricting access via the firewall to RDP enabled machines to allow only those who are allowed to connect
  - Enable an account lockout policy for failed attempts
  - The use of a VPN tunnel to access a network in the first instance, and then allowing users to subsequently use RDP or RDS to access a device afterwards is highly recommended
- Review NCSC advice regarding measures for IT teams to implement: [Mitigating malware and ransomware attacks - NCSC.GOV.UK](#)
- Provide awareness training for staff to recognise, report, and appropriately respond to security messages and/or suspicious activities.

### Advice and guidance

- The NCSC website has an extensive range of practical resources to help improve [Cyber Security for Schools - NCSC.GOV.UK](#)

### Acceptable Use

Ensure all users have read the relevant policies and signed IT acceptable use and loan agreements for school devices.

Please be aware if an incident is found to be caused by misuse, this could give rise to disciplinary measures and referral to the police.

## **Communicating the Plan**

Communicate the Cyber Recovery Plan to all those who are likely to be affected and be sure to inform key staff of their roles and responsibilities in the event of an incident, prior to any issue arising.

## **Testing and Review**

During an incident there can be many actions to complete, and each step should be well thought out, cohesive, and ordered logically.

Train key staff members to feel confident following and implementing the plan. Review the plan regularly to ensure contact details are up-to-date and new systems have been included. NCSC have resources to test your incident response with an [Exercise in a Box - NCSC.GOV.UK](https://www.ncsc.gov.uk/resource/Exercise-in-a-Box)

## **Making Templates Readily Available**

It is recommended that templates are available to cover reporting, recording, logging incidents and actions, and communicating to stakeholders.

## 5. Actions in the event of an incident

If you suspect you have been the victim of a ransomware or other cyber incident, you should take the following steps immediately:

- Enact your [Cyber Recovery Plan](#)
- Contact the 24/7/365 RPA Cyber Emergency Assistance:
  - By telephone: **0800 368 6378** or by email: [RPAresponse@CyberClan.com](mailto:RPAresponse@CyberClan.com)
  - You will receive a guaranteed response within 15 minutes
  - Incident information will be recorded, advice will be provided and any critical ongoing incidents will be contained where possible
  - Subject to the claim being determined as valid, an expert Incident Response team will be deployed to rapidly respond to the incident, providing Incident Response services including: forensic investigation services and support in bringing IT operations securely back up and running.
- Inform the National Cyber Security Centre (NCSC) - <https://report.ncsc.gov.uk>
- Contact your local police via Action Fraud [Action Fraud website](#) or call **0300 123 2040**
- If you are a part of a Local Authority (LA), they should be contacted
- Contact your Data Protection Officer
- Consider whether reporting to the [ICO is necessary](#) report at [www.ico.org.uk](http://www.ico.org.uk) **0303 123 1112**
- Contact the Sector Security Enquiries Team at the Department for Education by emailing: [sector.securityenquiries@education.gov.uk](mailto:sector.securityenquiries@education.gov.uk)

**Please be aware that speed is of critical importance during a cyber incident to help protect and recover any systems that may have been affected and help prevent further spread.**

## 6. Cyber Recovery Plan

1. Verify the initial incident report as genuine and record on the [Incident Recovery Event Recording Form](#) at Appendix C.
2. Assess and document the scope of the incident using the [Incident Impact Assessment](#) at Appendix A to identify which key functions are operational / which are affected.
3. In the event of a suspected cyber-attack, IT staff should isolate devices from the network.
4. In order to assist data recovery, if damage to a computer or back up material is suspected, staff **should not**:
  - Turn off electrical power to any computer.
  - Try to run any hard drive, back up disc or tape to try to retrieve data.
  - Tamper with or move damaged computers, discs or tapes.
5. Contact [RPA Emergency Assistance Helpline](#).
6. Start the [Actions Log](#) to record recovery steps and monitor progress.
7. Convene the [Cyber Recovery Team](#) (CRT).
8. Liaise with IT staff to estimate the recovery time and likely impact.
9. Make a decision as to the safety of the school remaining open.
  - *This will be in liaison with relevant Local Authority Support Services / Trust*
10. Identify legal obligations and any required statutory reporting e.g., criminal acts / reports to the Information Commissioner's Office in the event of a data breach.
  - *This may involve the school's Data Protection Officer and the police*
11. Execute the [communication](#) strategy which should include a media / press release if applicable.
  - *Communications with staff, governors and parents / pupils should follow in that order, prior to the media release.*
12. Make adjustments to recovery timescales as time progresses and keep stakeholders informed.
13. Upon completion of the process, evaluate the effectiveness of the response using the [Post Incident Evaluation](#) at Appendix D and review the Cyber Recovery Plan accordingly.
14. Educate employees on avoiding similar incidents / implement lessons learned.

**Ensure this plan is kept up-to-date with new suppliers, new contact details, and changes to policy.**

The following sections should be completed to produce a bespoke Cyber Recovery Plan for your school:

## Cyber Recovery Team

In the event of this plan having to be initiated, the personnel named below will form the Cyber Recovery Team and take control of the following:

	Name	Role in School	Contact Details
Recovery Team Leader	Steve Haycocks	Headteacher	
Data Management	Kate Kidd		
IT Restore / Recover	Ric Turner		
Site Security	Paul Dumon		
Public Relations	Steve Haycocks		
Communications	Andrea Coles		
Resources / Supplies	Kate Kidd		
Facilities Management	Paul Dumon		

*This procedure should not be published with contact details included due to the risk of a data breach.*

## Server Access

Please detail all the people with administrative access to the server.

Role	Name	Contact Details
IT Support Technician	Mr R Turner/Mr I Lang	
Third Party IT Provider	Atom IT	

*This procedure should not be published with contact details included due to the risk of a data breach.*

## Management Information System (MIS) Admin Access

Please detail all the people with administrative access to the MIS

MIS Admin Access	Name	Contact Details
Headteacher	Mr S Haycocks	
School Business Manager	Ms K Kidd	
MIS Provider	SIMS/ParentPay	
MIS Support Provider	Schools ICT	
Data Manager	Kate Kidd	
Office Admin Team	Diane Newsome, Andrea Coles, Holly Swift, Wendy Peach, Naomi Breen, Anna Mahon	

*This procedure should not be published with contact details included due to the risk of a data breach.*

In the event of a cyber incident, it may be helpful to consider how you would access the following:

- Registers
- Staff / Pupil contact details
- Current Child Protection Concerns

## Backup Strategy

School Process	Backup Type (include on-site / off-site)	Frequency
Main File Server (mostly in Sharepoint now)	Onsite backup, offsite cloud, offsite tape media	Daily onsite and offsite Monthly tape offsite
School MIS	Onsite backup, offsite cloud, offsite tape media	Daily onsite and offsite Monthly tape
Cloud Services (M365 - OneDrive/SP/Mail)	Barracuda Cloud backup	Daily
Third Party Applications / Software	Onsite backup, offsite cloud, offsite tape media	Daily onsite and offsite Monthly tape offsite
Email Server	Offsite cloud backup (Barracuda)	Daily
Curriculum Files	Sharepoint offsite backup (Barracuda)	Daily
Teaching Staff Devices		
Administration Files	Onsite backup, offsite cloud, offsite tape media	Daily onsite and offsite Monthly tape offsite
Finance / Purchasing	3 <sup>rd</sup> Party cloud hosted	
HR / Personnel Records	3 <sup>rd</sup> Party cloud hosted	
Inventory	Onsite backup, offsite tape media	Daily onsite and Monthly tape offsite
Facilities Management / Bookings		
Website	Cloud hosted	
USBs / portable drives	Not backed up	

## Key Contacts

Supplier	Contact / Tel Number	Account / Reference Number
Internet Connection	<b>Virtue Technologies / 01695 731244</b>	
Backup Provider	<b>N/A</b>	
Telecom Provider	Yellowgrid Ltd, 0333 0144 340	BAL003
Website Host	Schudio, <a href="mailto:support@schudio.com">support@schudio.com</a> , 01772 5770753	
Electricity Supplier	<b>Total Energies 01737 275800 (Call 105 in event of (Electrical Emergency))</b>	<b>3005252976</b>
Burglar Alarm	Thorne 0330 024 9651, <a href="mailto:service@thorne.uk.com">service@thorne.uk.com</a> ,	Site ID 83175

	Alarm receiving centre = 01924 448882	
Text Messaging System	School Synergy – 01772 367630	
Action Fraud	<b>0300 123 2040</b>	
Local Constabulary	Lancashire Police – 101 / 01772 614444	
Legal Representative	LCC – Education Legal Advice <a href="mailto:education.legaladvice@lancashire.gov.uk">education.legaladvice@lancashire.gov.uk</a> , 01772 530849	
LA / Trust Press Officer	LCC Media Relations, 01772 535933	

*This procedure should not be published with contact details included due to the risk of a data breach.*

## Staff Media Contact

Assigned staff will co-ordinate with the media, working to guidelines that have been previously approved for dealing with post-disaster communications.

The staff media contact should only provide verified facts. It is likely that verifying details will take some time and stating, “I don’t know at this stage”, is a perfectly acceptable response.

It is likely the following basic questions will form the basis of information requests:

- What happened?
- How did it happen?
- What are you going to do about it?

Staff who have not been delegated responsibility for media communications **should not respond** to requests for information and should refer callers or media representatives to assigned staff.

Assigned Media Liaison(s):

Name: Andrea Coles    Role: Administrative and Social Media Officer

Name: \_\_\_\_\_ Role: \_\_\_\_\_

## Key Roles and Responsibilities

Every school is unique and the structure and staffing levels will determine who will be assigned which task. This example will help you assign roles and responsibilities, but this is not an exhaustive or a definitive list.

### Headteacher / Principal (with support from Deputy Head / Vice Principal)

- Seeks clarification from person notifying incident.
- Sets up and maintains an incident log, including dates / times and actions.
- Convenes the Cyber Recovery Team (CRT) to inform of incident and enact the plan.
- Liaises with the Chair of Governors.
- Liaises with the school Data Protection Officer.
- Convenes and informs staff, advising them to follow the 'script' when discussing the incident.
- Prepares relevant statements / letters for the media, parents / pupils.
- Liaises with School Business Officer / Manager to contact parents, if required, as necessary

### Designated Safeguarding Lead (DSL)

- Seeks clarification as to whether there is a safeguarding aspect to the incident.
- Considers whether a referral to Cyber Protect Officers / Early Help / Social Services is required.

### Site Manager / Caretaker

- Ensures site access for external IT staff.
- Liaises with the Headteacher to ensure access is limited to essential personnel.

### School Business Officer / Manager

- Ensures phone lines are operative and makes mobiles available, if necessary – effectively communicating numbers to relevant staff.
- Ensures office staff understand the [standard response](#) and knows who the media contact within school is.
- Contacts relevant external agencies – RPA Emergency Assistance / IT services / technical support staff
- Manages the communications, website / texts to parents / school emails.
- Assesses whether payroll or HR functions are affected and considers if additional support is required.

### Data Protection Officer (DPO)

- Supports the school, using the school data map and information asset register to consider whether data has been put at risk, is beyond reach, or lost.
- Liaises with the Headteacher / Chair of Governors and determines if a report to the ICO is necessary.
- Advises on the appropriateness of any plans for temporary access / systems.

### Chair of Governors

- Supports the Headteacher throughout the process and ensure decisions are based on sound judgement and relevant advice.
- Understands there may be a need to make additional funds available – have a process to approve this.
- Ensures all governors are aware of the situation and are advised not to comment to third parties / the media.
- Reviews the response after the incident to consider changes to working practices or school policy.

## **IT Lead / IT Staff**

**Depending upon whether the school has internal or outsourced IT provision, the roles for IT Co-ordinators and technical support staff will differ.**

- Verifies the most recent and successful backup.
- Liaises with the RPA Incident Response Service to assess whether the backup can be restored or if server(s) themselves are damaged, restores the backup and advises of the backup date and time to inform stakeholders as to potential data loss.
- Liaises with the Headteacher as to the likely cost of repair / restore / required hardware purchase.
- Provides an estimate of any downtime and advises which systems are affected / unaffected.
- If necessary, arranges for access to the off-site backup.
- Protects any records which have not been affected.
- Ensures on-going access to unaffected records.

## **Teaching Staff and Teaching Assistants**

- Reassures pupils, staying within agreed [pupil standard response](#)
- Records any relevant information which pupils may provide.
- Ensures any temporary procedures for data storage / IT access are followed

## Critical Activities - Data Assets

List all the data assets your school has access to and decide which are critical and how long you would be able to function without each one. This could be a matter of a few hours or a matter of a day, a week or even a month.

Complete the required column with the timescale you believe is necessary for recovery. You may find it helpful to refer to your Inventory / Data Map.

**Assign:** 4 hours / 12 hours / 24 hours / 48 hours / 72 hours / 1 week / 2 weeks / 3 weeks / 1 month

Also decide if there are any temporary workarounds or if outsourcing is possible. It is useful to consider the cost of any additional resources which may be required in an emergency situation.

Critical Activities	Data item required for service continuity	When Required	Workaround? (Yes / No)
Leadership and Management	Access to Headteacher's email address		
	Minutes of SLT meetings and agendas		
	Head's reports to governors (past and present)		Yes
	Key stage, departmental and class information		
Safeguarding / Welfare	Access to systems which report and record safeguarding concerns		Yes
	Attendance registers		Yes
	Class groups / teaching groups, and staff timetables		
	Referral information / outside agency / TAFs		
	Child protection records		
	Looked After Children (LAC) records / PEPs		
	Pupil Premium pupils and funding allocations		
Medical	Pastoral records and welfare information		
	Access to medical conditions information		Yes
	Administration of Medicines Record		Yes
Teaching	First Aid / Accident Logs		Yes
	Schemes of work, lesson plans and objectives		
	Seating plans		Yes
	Teaching resources, such as worksheets		
	Learning platform / online homework platform		
	Curriculum learning apps and online resources		
	CPD / staff training records		
SEND Data	Pupil reports and parental communications		
	SEND List and records of provision		Yes
	Accessibility tools		
	Access arrangements and adjustments		
Conduct and Behaviour	IEPs / EHCPs / GRIPS		
	Reward system records, including house points or conduct points		Yes
	Behaviour system records, including negative behaviour points		Yes
	Sanctions		
	Exclusion records, past and current		
Assessment and Exams	Behavioural observations / staff notes and incident records		Yes
	<b>Data item required for service continuity</b>	<b>When Required</b>	<b>Workaround? (Yes / No)</b>
	Exam entries and controlled assessments		Yes
	Targets, assessment and tracking data		Yes

	Baseline and prior attainment records		
	Exam timetables and cover provision		Yes
	Exam results		
Governance	School development plans		Yes
	Policies and procedures		Yes
	Governors meeting dates / calendar		Yes
	Governor attendance and training records		Yes
	Governors minutes and agendas		Yes
Administration	Admissions information		Yes
	School to school transfers		
	Transition information		Yes
	Contact details of pupils and parents		Yes
	Access to absence reporting systems		Yes
	School diary of appointments / meetings		
	Pupil timetables		
	Letters to parents / newsletters		
	Extra-curricular activity timetable and contacts for providers		
Human Resources	Census records and statutory return data		
	Payroll systems		Yes
	Staff attendance, absences, and reporting facilities		
	Disciplinary / grievance records		Yes
	Staff timetables and any cover arrangements		
Office Management	Contact details of staff		Yes
	Photocopying / printing provision		
	Telecoms - school phones and access to answerphone messages		
	Email - access to school email systems		
	School website and any website chat functions / contact forms		
	Social media accounts (Twitter)		Yes
	Management Information System (MIS)		Yes
	School text messaging system		Yes
	School payments system (for parents)		Yes
Site Management	Financial Management System - access for orders / purchases		Yes
	Visitor sign in / sign out		
	CCTV access		
	Site maps		Yes
	Maintenance logs, including legionella and fire records		Yes
	Risk assessments and risk management systems		Yes
Catering	COSHH register and asbestos register		Yes
	Contact information for catering staff		Yes
	Supplier contact details		Yes
	Payment records for food & drink		
	Special dietary requirements / allergies		
	Stock taking and orders		Yes

## Appendix A: Incident Impact Assessment

Use this table to assess and document the scope of the incident to identify which key functions are operational / which are affected:

<b>Operational</b>	No Impact	There is no noticeable impact on the school's ability to function.
	Minor Impact	There is some loss in the ability to function which is minor. Functions can be carried out, but may take longer and there is a loss of efficiency.
	Medium Impact	The school has lost the ability to provide some critical services (administration <b>or</b> teaching and learning) to <b>some</b> users. The loss of functionality is noticeable, but workarounds are possible with planning and additional resource.
	High Impact	The school can no longer provide any critical services to users. It is likely the school will close or disruption will be considerable.

<b>Informational</b>	No Breach	No information has been accessed / compromised or lost.
	Data Breach	Access or loss of data which is <b>not</b> linked to individuals and classed as personal. This may include school action plans, lesson planning, policies and meeting notes.
	Personal Data Breach	Sensitive personally identifiable data has been accessed or extracted. Data which may cause 'significant impact' to the person / people concerned requires a report to the ICO within 72 hours.
	Integrity Loss	Data, which may include sensitive personal data, has been changed or deleted. (This also includes corruption of data)

<b>Restoration</b>	Existing Resources	Recovery can be promptly facilitated with the resources which are readily available to the school.
	Facilitated by Additional Resources	Recovery can be facilitated within an identified timescale with additional resources which can be easily accessed.
	Third Party Services	Recovery is not guaranteed, and outside services are required to facilitate full or partial restoration.
	Not Recoverable	Recovery from the incident is not possible. Data may have been extracted, encrypted or backups may have failed.

## Appendix B: Communication Templates

## 1. School Open

Dear Parent/Carer,

I am writing to inform you that it appears the school has been a victim of [a cyber-attack / serious system outage]. This has taken down [some / all] of the school IT systems. This means that we currently do not have any access to [telephones / emails / server / MIS etc] At present we have no indication of how long it will take to restore our systems. [OR it is anticipated it may take XXXX to restore these systems]

We are in liaison with our school Data Protection Officer and, if required, this data breach will be reported to the Information Commissioners Office (ICO) in line with requirements of the Data Protection Act 2018 / GDPR. Every action has been taken to minimise disruption and data loss.

The school will be working with the [Trust / Local Authority], IT providers and other relevant third parties [Department for Education / NCSC / local police constabulary] to restore functionality and normal working as soon as possible.

In consultation with the [Trust / Local Authority] we have completed a risk assessment on all areas affected to address concerns surrounding the safeguarding of our pupils and staff. The school will remain open with the following changes [detail any changes required]

I appreciate that this will cause some problems for parents/carers with regards to school communications and apologise for any inconvenience.

We will continue to assess the situation and update parents/carers as necessary. [If possible, inform how you will update i.e. via website/text message]

Yours sincerely,

## 2. School Closure

Dear Parent/Carer,

I am writing to inform you that it appears the school has been a victim of [a cyber-attack / serious system outage]. This has taken down the school IT system. This means that we currently do not have any access to [telephones / emails / server / MIS etc]. At present we have no indication of how long it will take to restore our systems.

We are in liaison with our school Data Protection Officer and this data breach has been reported to the Information Commissioners Office (ICO) in line with the requirements of the Data Protection Act 2018 / GDPR.

In consultation with the [Trust / Local Authority] we have completed a risk assessment on all areas affected to address concerns surrounding the safeguarding of our pupils and staff.

I feel that we have no option other than to close the school to students on [XXXXXXXXXX]. We are currently planning that the school will be open as normal on [XXXXXXXXXX]

I appreciate that this will cause some problems for parents/carers with regards to childcare arrangements and apologise for any inconvenience but feel that we have no option other than to take this course of action.

The school will be working with the [Trust / Local Authority], IT providers and other relevant third parties [Department for Education / NCSC / local police constabulary] to restore functionality and re-open as soon as possible.

We will continue to assess the situation and update parents / carers as necessary. [If possible, inform how you will update i.e. via website / text message].

Yours sincerely,

### 3. Staff Statement Open

The school detected a cyber-attack on [date] which has affected the following school IT systems:  
(Provide a description of the services affected)

Following liaison with the [Trust / LA] the school will remain open with the following changes to working practice:

(Detail any workarounds / changes)

The school is in contact with our Data Protection Officer and will report to the ICO, if necessary, in line with statutory requirements of the Data Protection Act 2018 / GDPR.

This incident is being investigated by the relevant authorities. If you are asked for any information as part of the on-going investigation, please provide it promptly. The school has taken immediate action to mitigate data loss, limit severity, and restore systems.

All staff are reminded that they must not make any comment or statement to the press, parents or wider community with regards to this incident or its effects. Queries should be directed to [Insert staff name]

#### 4. Staff Statement Closed

The school detected a cyber-attack on [date] which has affected the following school IT systems:

(Provide a description of the services affected)

Following liaison with the [Trust / LA] the school will close to pupils [on DATE or with immediate effect].

(Detail staff expectations and any workarounds / changes or remote learning provision)

The school is in contact with our Data Protection Officer, and we have reported the incident to the ICO, in line with the statutory requirements of the Data Protection Act 2018 / GDPR.

This incident is being investigated by the relevant authorities. If you are asked for any information as part of the on-going investigation, please provide it promptly. The school has taken immediate action to mitigate data loss, however we are unsure when systems will be restored. Staff will be kept informed via [telephone / email / staff noticeboard].

All staff are reminded that they must not make any comment or statement to the press, parents, or wider community with regards to this incident or its effects. Queries should be directed to [Insert staff name].

## 5. Media Statement

[Inset school name] detected a cyber-attack on [date] which has affected the school IT systems. Following liaison with the [Trust / LA] the school [will remain open / is currently closed] to pupils.

The school is in contact with their Data Protection Officer and will report to the ICO, if necessary, in line with statutory requirements of the Data Protection Act 2018 / GDPR.

This incident is being investigated by the relevant authorities and the school has taken immediate remedial action to limit data loss and restore systems.

A standard staff response for serious IT incidents should reflect only information which is already freely available and has been provided by the school in initial media responses.

### Standard Response

The information provided should be factual and include the time and date of the incident.

Staff should not speculate how long systems will take to be restored but can provide an estimate if this has been agreed.

If no restoration date has been advised, staff should merely state that work is on-going and that services will resume as soon as practically possible.

Staff should direct further enquiries to an assigned contact / school website / other pre-determined communication route.

### Standard Response for Pupils

For staff responding to pupil requests for information, responses should reassure concerned pupils that incidents are well prepared for, alternative arrangements are in place and that systems will be back online shortly.

Staff should address any outlandish or suggested versions of events by reiterating the facts and advising pupils that this has been confirmed in letters / emails to parents / carers.

Staff should not speculate or provide pupils with any timescales for recovery, unless the sharing of timescales has been authorised by senior staff.

## Appendix C: Incident Recovery Event Recording Form

This form can be used to record all key events completed whilst following the stages of the Cyber Response Plan.

<b>Description or reference of incident:</b>	
<b>Date of the incident:</b>	
<b>Date of the incident report:</b>	
<b>Date/time incident recovery commenced:</b>	
<b>Date recovery work was completed:</b>	
<b>Was full recovery achieved?</b>

## Appendix D: Post Incident Evaluation

Response Grades 1-5      1 = Poor, ineffective and slow / 5 = Efficient, well communicated and effective.

Action	Response Grading	Comments for Improvements / Amendments
Initial Incident Notification		
Enactment of the Action plan		
Co-ordination of the Cyber Recovery Team		
Communications Strategy		
Impact minimisation		
Backup and restore processes		
Were contingency plans sufficient?		
Staff roles assigned and carried out correctly?		
Timescale for resolution / restore		
Was full recovery achieved?		
Log any requirements for additional training and suggested changes to policy / procedure:
