

Year 9 Dtp and Meningitis ACWY Immunisations Information - 24th March

Dear Parent/Carer

In a recent email from Mr Haycocks he highlighted access to our school nurses. Unfortunately, due to new restrictions in place which came into effect yesterday, 23rd March, the school nursing team have written to us to say they have now been advised to stop vaccinating in schools or community clinics. This will affect your child who was due to be immunised. Therefore they are postponing the Year 9 Dtp and Meningitis ACWY Immunisations. As soon as the situation changes and they are able to resume the immunisation programme they will contact schools with a view to booking dates for future immunisation sessions. At that time and once dates are known we will contact you again.

Thank you for your patience and understanding.
