Covid Symptoms

We are following Government guidelines in school if your child shows any COVID symptoms.

If your child has a runny nose, tummy ache, cold etc, and you deem your child well enough to come into school, then they can come in as these are not COVID symptoms.

However, if they have a temperature, a new continuous cough or a loss of taste or smell, please keep them at home and follow the guidance we have provided.

If your child develops a temperature, a new continuous cough or a loss of taste or smell whilst in school, we will contact you to collect your child, and follow the guidance we have provided.

We will take your child's temperature using a head scanner thermometer to ascertain if your child has a temperature.

If your child has one of the symptoms, we are obliged for everyone's safety to send them home.

Your child will be provided with a COVID testing kit by school, for you to take home and use.

Please see "COVID symptoms at home flow chart" and a copy of the guidance we have to follow.

Thank you for your understanding on this matter, it is greatly appreciated.

Mrs Clarey and Team.
