Curriculum newsletter: Autumn 2

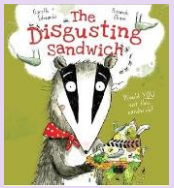

Holly 1

A message from Miss Rogers

Welcome back to Holly 1, we have lots more learning opportunities this term. This newsletter will inform you of all of the fun and exciting activities we have planned for this term.

Writing

In Year 1 writing, we are reading 'The Disgusting Sandwich' where we will be introduced to using command verbs to create instructions as well as reminding ourselves to use capital letters, finger spaces and full stops. The outcome for this unit will be a set of instructions.

Reading

Children who enjoy reading regularly thrive in their learning and therefore children are asked to read with an adult for 5- 10 minutes every day to rehearse this skill and develop a love of reading. This could be school books, library books as well as own reading books. Our library day is a TUESDAY.

Reading books will be changed once a week to allow children to develop fluency and a good understanding of the vocabulary within the book. They will read this book three times in school before it is sent home.

Maths

In maths, we will be focusing on place value, securing our number facts and fact family knowledge. We will be securing our knowledge of using the part, part, whole model and also use the bar model to help develop our understanding.

Computing

In Computing, we are learning about technology around us and how computer systems work.

RE

In RE, we will learn about the Christmas Story and collect their learning in the class floor book.

PSHE

In PSHE, we will be learning about valuing differences, being respectful. Children will explore how to be a good friend, work respectfully with others and understand the difference between teasing, bullying and kind behaviour.

PE

In PE, we will develop our net and wall skills in game-based learning with a coach on Tuesdays. We will also develop our fitness skills in our other session. PE days are TUESDAY and WEDNESDAY

Fire Fighters

This term, we will be continuing to explore The Great Fire of London through an exciting Mantle of the Expert project. Children will take on a range of roles, including historians, builders, artists and eyewitnesses, to investigate this important historical event. Through hands-on learning across History, Geography, Art, DT, Music and English, children will develop their knowledge, skills and creativity while bringing the past to life.
