

Growing and Changing – part of our Personal Social Health and Economic Education (PSHE)

Year 5

What your child will be learning about:

Next half term's PSHE topic, '*Growing and Changing*', will incorporate Relationships and Health Education (RHE) and will be designed to cover key skills, attitudes and values children need to explore in order to develop healthy relationships with their peers. Children will also learn how to keep themselves safe and how to ask for help when they need it.

In Year 5, this topic will build on themes covered previously but in greater depth, looking more closely at: how children's changing feelings during puberty and as they grow up can affect those they live with; what makes relationships unhealthy, including how individual or group actions can impact others in a positive or negative way; and exploring safe and unsafe secrets and when to break a confidence in order to keep someone safe. Throughout this topic, we will help the children to understand their emotions and identify strategies they can use to build resilience, along with strategies to deal with uncomfortable situations.

We will also be exploring the following themes:

Body changes and feelings during puberty

Building on themes surrounding puberty previously covered, children will learn the correct words for the external sexual organs. We will discuss some of the myths associated with puberty and identify some products they may need during puberty and why. Children will be educated about changes people experience during puberty, including menstruation and why it happens, involuntary erections, wet dreams, masturbation, body shape changes and hair growth.

Different types of bullying, including homophobic and transphobic bullying

We will teach the children that any form of bullying is unacceptable, including bullying based on how someone expresses their gender or sexual orientation. We will help children to develop more awareness of bullying behaviours and give examples of how they can be stopped.

Vocabulary your child will learn:

separation, fostered, pubic hair, clitoris, vulva, vaginal opening, urinary opening, lips (labia), penis, scrotum, testicles, foreskin, anus, wet dreams, erection, stretch marks, puberty, semen, menstruation, masturbation, reactions, hormones, compromise, prejudice, sexual orientation, gender identity.

Questions your child may ask at this age:

- When did you start puberty?
- How did you feel? Was it bad?
- Is it normal?
- How can I tell someone not to do something that's making me uncomfortable, but without hurting their feelings?
- Have you ever been bullied or know someone who was bullied? What did you do?
- Have you ever been treated in a stereotypical way?
- Have you ever been made to keep a secret when you didn't want to? How did you handle it?
- Do you have to shave?
- How old do you have to be to shave?
- What period products should I use?
- Do I need to wear deodorant?
- Can you help me get some things to prepare for my body changing?
