

# Emma Oji's Poster Problem

The city of Texthaven was a colourful and happy place. It was full of bright pictures and smiling faces. However, one by one, all of the posters around the city have gone missing!

Desperate for answers, the city's mayor, Emma Oji, contacted the police. They checked all of the city's CCTV cameras to try and track down the culprit but none of the cameras have managed to get a clear picture. Instead, each camera only gave the police one clue about the culprit's identity.

As Detective Chief Inspector on the case, it is your job to find out which emoji took all of the posters. You have taken down the names and descriptions of ten emojis that live in the city. You also have five important clues that have been discovered using the CCTV cameras.

To crack the case, you will need to solve each clue and check the information with the list of names. Will you be able to solve the mystery and find who took all the posters?

**Good luck!**

# Clue 1

## I've Got My Eye on You...

Draw a line to match the word to the correct vowel digraph then write the word in the box. Make sure that you spell the words correctly. The vowel digraph with the most matching words will show whether the emoji has its eyes open or closed.

**ou**

If **ou** has the most matching words, the emoji's eyes are **open**.

**ow**

If **ow** has the most matching words, the emoji's eyes are **closed**.

The vowel digraph with the most matching words is \_\_\_\_\_ so the emoji's eyes are \_\_\_\_\_.

# Clue 2
